CPSY 540  Applied Developmental Neuropsychology
Summer Session 1, 2007

Thursday:        May 10 – June 28 & Saturday, June 16th, 2007

Instructor:      Colleen M. Hanson, Ed.D.
                 Forest Park School (503) 916-5400  [through 06/19/07]
                 E-Mail: forskykids@yahoo.com

Office Hours:    By appointment

                  2. Acquired Brain Injury: From Hospital to School & Beyond.
                     C.M. Hanson & M.E. Colwell (2001). **
                     &
                  3. Articles **

** Purchased in first class  ($35)

Course Description:

This course offers the student a conceptual overview of the field of Neuropsychology
from both developmental and applied perspectives. During this course students will
explore theories and principles of Neuropsychology and their relationship to practice in
school and mental health settings. Students will have a basic understanding of brain
anatomy and function and the effect a variety of diseases and conditions have on the
developing brain. Also covered will be how these various conditions manifest
themselves in the educational setting in the areas of learning and memory and what
services might be available to students with acquired brain and other neurodevelopmental
injuries under the IDEA.

Goals & Objectives:

At the completion of this course, each student will:

- Have a conceptual framework of Neuropsychology and its implications for school
  and mental health settings
- Have a basic understanding of normal and abnormal neurodevelopment from birth
  through adulthood
- Have a basic knowledge of the anatomy and functions of the brain
• Gain an overview of psychopharmacology as it relates to the brain and is applied in practice
• Become familiar with the neurological and educational aspects/implications of a variety of medical conditions of the brain, such as:
  1. Fetal Alcohol Syndrome
  2. Substance Abuse & other toxic products (inhalants, etc.)
  3. Strokes & other vascular accidents
  4. Attentional Disorders
  5. Seizure Disorders (epilepsy)
  6. Tumors of the brain
  7. Cerebral Palsy
  8. Shaken Baby (Sudden Impact, Shaken Impact) Syndrome
  9. Pharmacology
 10. Concussions vs Comas
 11. Post-Traumatic Stress Disorder
 12. Learning Disabilities/Dyslexia
 13. Amnesia
 14. Behavior-Brain Relationships

• Be introduced to a selection of neuropsychological assessment tools and understand their role in the assessment and identification of memory, learning, and brain dysfunction. Examples of instruments would be:
  1. Children’s Memory Scale (CMS)
  2. Wechsler Memory Scale – Third Edition (WMS-III)
  3. Developmental Assessment of Neurological Functions (NEPSY)
  4. Wide Range Assessment of Memory and Learning (WRAMAL)

Students will:

  1. Prepare a 6-8 page research paper on one of the medical conditions of the brain listed above and make a formal class presentation. Each research paper will:
     a. Have cited references (at least 6) – format to be discussed in class
     b. Be presented in class with group discussion (15-20 min.)
     c. Be copied for class members and be distributed at the time of presentation (1 for me which will be returned to you with my comments)
     d. Include a discussion of:
        i. Structures of the brain involved
        ii. Symptoms
        iii. Prevalence in the population
        iv. Educational implications
        v. Vocational/social implications
        vi. Implications at various developmental stages
        vii. Prognosis
NOTE: Tables, outlines, graphs, drawings, and references are in addition to the 6-8 pages

2. Prepare 3 individual critiques/reaction papers on the following articles (2 pages each)
   1. Fertile Minds (Time Magazine/February, 1997)
   2. The Quest for a Super Kid (Time Magazine/April, 2001)
   3. Alcohol & the Brain (US News/May, 2001)

3. Complete the Take-Home Final

Grades:

   Research Paper/Presentation = 25%
   Article Critique # 1 = 5%
   Article Critique # 2 = 5%
   Article Critique # 3 = 5%
   Take-Home Final = 60%

   TOTAL = 100%

Grade Distribution:

   98-100 = A+
   93-97 = A
   90-92 = A-
   87-89 = B+
   83-86 = B
   80-82 = B- …etc., etc., etc. …
CPSY 540  Applied Developmental Neuropsychology
Summer Session 1, 2007

CALENDAR

Instructor:  Colleen M. Hanson, Ed.D.
            Forest Park  503-916-5400  E-Mail: forskykids@yahoo.com

May 10th  (Class 1)
1. Overview of course, review of syllabus, selection of research topic
2. Discussion of Take-Home Final
3. Hand out Text and Articles
4. Missed Classes
5. Video: Fires of the Mind

May 17th  (Class 2)
1. Neuropsychology vs School Psychology
2. Early theorists and the brain
3. Brain development
4. Normal development in the young child

May 24th  (Class 3)
1. Structures of the Brain
2. Acquired Brain Injuries: Part 1
3. Cognitive sequelae & educational implications following brain injury
4. Video: Traumatic Brain Injury
5. Article 1 Critique DUE: Fertile Minds

May 31st  (Class 4)
1. Acquired Brain Injury: Part 2
2. IDEA Eligibility & Acquired Brain Injury
3. Comparing & Contrasting TBI with other IDEA disability categories
4. Human Memory: Part 1

June 7th  (Class 5)
1. Human Memory: Part 2
2. Testing for Memory
3. Article 2 Critique DUE: The Quest for a Super Kid

June 14th  (Class 6)
1. Test instruments for school-based Neuropsychology: Part 1
2. Catching Up!!!!
3. Article 3 Critique DUE: What Makes Teens Tick
June 17th  (Class 7)  SATURDAY

Please bring something to share for breakfast. I’ll bring juice & coffee.

1. Test Instruments for school-based Neuropsychology: Part 2
2. Neuropsychological implications of the “BIG 3”: WISCIV, SB5th & WJIII
3. Looking Ahead in School Psychology
4. The BIG Retirement GIVE-A-WAY!!!!!

June 21st  (Class 8)

1. Research Presentations
   a. ___________________________________________________________
   b. __________________________________________________________
   c. __________________________________________________________
   d. __________________________________________________________
   e. __________________________________________________________
   f. __________________________________________________________
   g. __________________________________________________________

June 28th  (Class 9)  LAST CLASS

1. Research Presentations
2. Make-Up Class Presentations
3. TAKE-HOME FINAL due
4. Course Evaluations due
5. All “INCOMPLETE” Paperwork [i.e., Testing and Reports] from 537 & 538 due

   Pizza, Pizza, Pizza!!!!!!!

   a. __________________________________________________________
   b. __________________________________________________________
   c. __________________________________________________________
   d. __________________________________________________________
   e. __________________________________________________________
   f. __________________________________________________________
   g. __________________________________________________________
