Course Description: This class is designed to provide instruction and supervision to first semester practicum students working with clients at the Lewis and Clark Community Counseling Center. Students will receive live supervision and feedback as designated by CACREP requirements. The focus of the class will be to provide ethical and competent client care while working within the parameters of time (typically one semester), student theoretical orientation and client issues/goals. Skills that will receive particular attention will include developing a therapeutic relationship, counselor empathy and compassion. The recognition of the impact of race, culture, gender, sexual orientation and poverty as well as other societal and political influences that define the context of the therapeutic relationship will be highlighted as well. A beginning knowledge of client assessment and the development of treatment planning (including articulating the goals, objectives and interventions) will be developed. The establishment of a self-care practice and development of professional boundaries will be central as students become aware of countertransference and vicarious trauma while growing professionally as a counselor.

- The instructor will make final decisions about grading.
- Failure to complete class requirements may include a deferred grade as well as the possible enrollment in a second semester of practicum.
- Failure to complete the required number of direct service hours in a semester may result in a deferred grade with the possible enrollment in a second semester of practicum.
- Failure to follow Ethical Guidelines of the profession will require a meeting to determine the next steps for addressing the concerns.
- Occasionally personal issues or life events will make it impossible for a student to move forward in their growth as a counselor and they will be encouraged or required to take some time off for self care.

**Ethical Guidelines:** Students are expected to follow the ethical guidelines put forth by the American Counseling Association and to seek supervision when there is case confusion or an ethical dilemma to be resolved. Failure to follow ethical guidelines and/or non-disclosure of ethical problems and the seeking of appropriate supervision may result in dismissal from the practicum and/or counseling program. To follow ethical guidelines in relation to clients and to respect the work of our peers it is of fundamental importance that the contents of group discussion be regarded as absolutely confidential.
