### **Assignments**

#### Project 1: Leading Chapter Discussion

You will be asked to lead or co-lead a discussion of a selection from the course texts. Your primary goal will be to facilitate a twenty-minute group discussion of the class reading using the group leadership skills outlined in texts. Please come prepared with an outline of the readings in your head or notes, as well as questions or prompts that would help the discussion to gain traction. **Your goal is not to lead an activity or do a presentation, but instead to facilitate a discussion.** At the end of the discussion, you will receive feedback from the instructor and group on leadership skills and qualities you demonstrated and also ones you could practice more.

#### Project 2: School Group Practicum

As a major component of this course, you will be supervised as you lead or co-lead a social skills counseling group for children at an elementary schools in the David Douglas school district on approximately eight scheduled days during class time. You will receive supervision and evaluation in your efforts to address the following goals for each of these group sessions:

- 1) Successful implementation of the group curriculum presented in class
- 2) Successful collaboration with your co-leader in the group setting
- 3) Successful application of group theory and leadership skills from course texts
- 4) Successful reception of and application of feedback from supervisors
- 5) Successful negotiation of personal and professional boundaries

#### Project 3 & 4: 514 Practice/Theory Papers 1 & 2

You are asked to write two 4-5 page papers reflecting on your practice of leading children's counseling groups following the **Practice/Theory Paper Grading Guidelines** outlined on page 5 of this syllabus.

#### Project 5: Class Attendance and Participation

Because of the importance of our in-class time together, regular and timely class attendance and engaged participation are expected and will be assessed and feedback will be provided. Missing more than one class period during the term may result in an incomplete or failing grade for the class. Due to its importance in setting up the term, students must drop the class if the first class session is missed. Please contact me prior to class or due dates regarding any absences from class or problems with assignment deadlines. Please notify the instructor of any special learning considerations in relation to the American Disabilities Act that will need to be taken into account.

Any missed class time will require a standard make-up assignment, due the following week: A 2-3 page paper in which you: 1) describe what you learned from interviewing two individuals who attended the class you missed, and, 2) discuss the chapters due during the week you missed, including comments, questions and what you learned regarding those readings.

#### Project 6: Pre-, Midterm, and Post-Assessments

During our first class period, we will ask you to write for 10 minutes about your interests and concerns regarding the topic of our class: What kind of history or experience do you have with group counseling and group dynamics? What interests you or concerns you about the syllabus? What do you hope to learn and how do you hope to learn it? Your writing on these questions will help us to understand your needs in the class and how we might address them. You will also be asked to fill out a pre-assessment that will be discussed in class. In the middle of the term, you will be asked to fill out a self-evaluation as well as a

course evaluation as honestly and completely as possible. This self-evaluation helps give us an idea as to how the class is going for you and if you are achieving your own learning goals as well as ours for the class. For the final class, you will be asked to complete and turn in a Post-Assessment.

### About Writing

Hello Peter. Thank you for your message. I just tried to call you, but I got voicemail.

In our paper screening, we selected 5 out of 10 to interview. In Mary's case, there were misspellings/typos in her letter -- which concerned us. If you strongly believe she's a star, we'll reconsider and add her to our interviews on Thursday. I realize that paper screening isn't always the best process. We chose not to interview all 10. Any direction you wish to provide is strongly appreciated! Gratefully, Antonia

Writing can help you better integrate your thoughts, feelings and actions regarding both your personal and professional development. That is, good writing reflects a conscientious and sustained effort to make clear and visible your thoughts and feelings about a topic and how you should act as a consequence of these reflections. Clear writing is a result of a reiterative and editorial process. Please strive to meet the following standards that we set for all writing assignments in this class.
