COURSE SYLLABUS
Lewis & Clark College: Graduate School of Education and Counseling
CPSY 524 Counseling and Interventions with Adults
Summer 2013

Instructor: Tanya Prather, Ph.D.
E-mail: tanyaprather@lclark.edu
Phone: 971-212-5927

Time: Thursdays, 1 – 4:30 or 5:30 – 9:00 PM, 5/9/13 – 8/8/12 (except 7/4/13)

Textbooks/Materials:
The Art of Integrative Counseling, (2013), Gerald Corey
Mindfulness and Psychotherapy, (2005), Germer, Siegel, & Fulton.

Readings: A class packet is required and available at the bookstore for 42.30.
Readings from Lewis and Clark library will also be required and linked directly on the Moodle page.

Catalogue Description: Contemporary approaches to assessment, treatment planning, and intervention based in bio-psychosocial systems and empirically supported interventions. Major areas include mood disorders, anxiety disorders, psychotic disorders, personality disorders, substance abuse and addictive disorders including eating disorders and gambling. Emphasis on multicultural and ecological contexts in planning and conducting multifaceted interventions for change.

Course Goals and Objectives:
1. Demonstrate how to use information from multiple assessment strategies to create treatment plans that are client-centered, individualized, and culturally sound. (CC: 7h, 7f, 5b, 2c, A5, C2, C4, C7)
2. Describe and explain the major elements of intervention (treatment) planning strategies. (CC: 5b, 5c, C2, C7)
3. Create basic treatment plans drawing on evidence-based treatments for depression, anxiety disorders, substance abuse, and other common presenting problems. (CC: 5b, 5c, 3c, C2, C4)
4. Describe and explain the application of core evidence-based psychosocial interventions for common problems in mental health and addictions treatment. (CC: 5b, 5c, 3c, C1, C2)
5. Construct means of evaluating client progress. (CC: 7g, 5b)
6. Find, evaluate, and present critical concepts and evidence about diagnosis and treatment of a specific clinical issue or disorder. (CC: 8e)
7. Identify and use information about the personal, social, and cultural context of a client’s life to formulate client-centered treatment plans. (CC: 2c, 5b, 5c, 3c, A5, C3)
8. Describe and give examples of ways to integrate client’s values, positive personal goals, religious and spiritual consciousness and commitments into treatment planning. (CC: 2c, 5b, 5c)
9. Describe, explain, and demonstrate through role plays and case planning how to use the DSM-IV system and criteria to enhance assessment and treatment planning for individual clients (CC: C5)
10. Describe, explain, and demonstrate via case studies how to choose appropriate modalities for intervention including group, family, medical, and other systems including community-based supports, and plan for short, intermediate, and long-term engagement based on client goals, needs, and resources. (CC: C3, C4, C7)

Readings: Corey Chapters 10-11  
Addressing Personality Disorders  
Linehan’s Dialectical Behavioral Therapy (DBT) for borderline personality disorder: Overview and Adaption, Swales, *Journal of Mental Health*, 2000, V 9, pp. 7-23 (linked)

**Aug 1** Working Toward Decisions and Behavior Change  
Readings: Corey, Chapter 12  
Addressing Addictive Disorders, Eating Disorders and Gambling Disorder  

Revisiting of Reflections Reports due
Course Requirements:

1. Class attendance and participation is vital. This will account for 12% of your final grade. In order for me to track this, each day you will bring a written question to class that you will then get answered in class and hand in to me at the end of class. There are 11 classes (not counting the 1st) and your answered questions will each be worth 1 point for a total of 11 points.

2. If you must miss a class, you will need to review the notes on the Moodle page for the day you missed and write a brief (1 – 2 page) reflection on what you missed.

3. Reflections paper. This will account for 14% of your grade. There are 7 questions to answer and each answer will receive a total of 2 points for clarity and completeness for a total of 14 points.

4. Best Practices report. This will account for 40% of your final grade. Each of the 8 criteria for the paper will receive a total possible score of 5 for a total of 40 points.

5. Best Practices presentation. This will account for 14% of your final grade. There are 7 areas to address and each answer will receive a total of 2 points for clarity and completeness for a total of 14 points.

6. Revisiting Reflections Paper. This will account for 20% of your final grade. Each of the 5 questions will receive 4 points for a total of 20 points.

Evaluation and Assessment: Grades will be assigned according to the following criteria:

A level work: Exceptional (90 – 100 pts)
B level work: Competent and sound (80-89 pts)
C level work: Minimal competence (70-79 pts)
D level work: Insufficient evidence of minimum mastery (60-69 pts)
F level work: Failure to demonstrate learning (59 and below)

Class Attendance: Being present in class and actively participating in all of the learning activities is critical to the successful accomplishment of the learning objectives. We will be actively exploring and practicing intervention and treatment planning techniques during class time. This is your time to try things out and see how they will work for you and your future clients. Enrollment in this graduate degree class is a commitment to its purposes and objectives in your personal development. Of course, life happens, and if you absolutely have to miss class, talk to me and you will be assigned make-up work for the time missed. I expect this to happen no more than once.

Reflections Paper: It is essential as a counselor/psychologist that you have a strong theoretical underpinning to your work. What theory of counseling you adopt will determine your methodology as well as the ways you interpret what happens in your sessions. This assignment asks you to do some internal searching and then use that to choose a theoretical framework that is the best fit for you and your future clients. This assignment is due early in the class so that you will rely on it throughout the rest of the term.
You will then revisit it at the end of the term to add insights and understandings you have gained throughout the term.

Your paper will answer the following questions:

1. What are my beliefs about change in counseling? About what causes clients distress? What leads to their symptoms?
2. What values do I hold about counseling and human development?
3. How would I describe my personality and how might it be expressed in a counseling session? How might clients experience me? What might be a challenge?
4. What life experiences have led me to desire to become a counselor?
5. What beliefs do I have about clients?
6. What theoretical framework [i.e., psychodynamic (that is, psychoanalytic, object-relations, Adlerian; experiential or relationship-oriented (that is, existential, person-centered, Gestalt); action-oriented (that is, behavioral therapy, rational-emotive behavioral, cognitive, reality therapy; solution-focused-brief therapy).] is the best fit for my beliefs, values and personality? (In answering this question, be specific and address all the questions above)
7. In what ways will I include critical theory in my counseling?

Due: May 30

Revisiting of Reflections Reports
Toward the end of the term, you will revisit your initial reflection papers and answer the following questions:

1. In what ways have my beliefs and values about counseling changed? Not changed?
2. What new information do I have to support my use of the theoretical framework I have chosen?
3. How does my theoretical framework influence the way I will address a) building rapport, b) assessment, 3) treatment planning, 4) evaluating progress, 5) “resistance”, and 6) termination?
4. What clients are the “best fit” for me as a counselor and my theoretical orientation?
5. What questions remain as I continue to prepare myself to do the work of counseling?

Due: August 1st

Best Practices Report and Presentation: As a counselor, you will be continually reviewing research and your own clinical experiences to determine what is the best course of treatment for your clients. Each client will be unique, and yet, it is essential to know what the research tells us about what interventions will best meet the needs of clients. This is always the place to start. For this assignment, each student group of 3 will choose to present on a diagnosis. No two groups may do the same topic. Your presentation and paper should include the following: 1) Brief description of the disorder, DSM criteria, rule-outs, etc., 2) The process or avenues through which people access treatment, 3) Assessment methods and instruments, 4) Establishing a therapeutic relationship, 5) Clear description of the intervention(s) including cognitive, behavioral and emotive considerations, 6) Issues of termination, 7) Brief report of research supporting or contra-indicating the treatment, and 8) Professional/ethical/legal/spiritual/cultural issues involved with this problem.

Presentations should be approximately 20-30 minutes in length.

Grades for the presentation will be assigned according to the following guidelines:

1) Clarity and quality of description of the disorder, model and avenues to treatment
2) Clarity and quality of the description of the assessment and treatment
3) Clarity and quality of the presentation of the research findings
4) Coverage of professional/ethical/legal/spiritual/cultural issues
5) Use and quality of visual aids  
6) Response to questions and presentation style (pacing, volume, eye contact, handling questions)  
7) Usefulness and thoroughness of handout to fellow students (not a review of your entire presentation, but the most salient points along with references and websites for more information.

**Topics & presentation dates chosen on May 23**  
**Best practice reports due on June 20**  
**Best practices presentations on June 20 & 27**

**Potential topics:**
Adult ADHD  
Anorexia  
Anti-social Personality Disorder  
Bulimia  
Narcissistic Personality Disorder  
Asperger’s Disorder  
Body Dysmorphic Disorder  
Chronic Pain  
Dissociative Identity Disorder  
Grief  
Sexual Offenders Treatment  
Problem Gambling  
Hypochondriasis  
Histrionic Personality Disorder  
Irritable Bowel Syndrome  
Tourettes Syndrome
