e-mail: suzanne@suzannebestphd.com  Phone: 503-430-4071

II. CREDIT HOURS: 2

III. BRIEF COURSE DESCRIPTION
Students will develop a foundation for assessing and treating post-trauma reactions in adults along with an overview of trauma responses in children. We will begin by reviewing the variety of trauma populations followed by in-depth instruction on the mechanism of PTSD development and maintenance and the assessment of post-trauma conditions. Next we will address clinical interventions including disaster mental health and exposure-based treatment. Finally, we will review issues affecting therapists working with trauma populations and self-care strategies to prevent compassion fatigue.

IV. OBJECTIVES
1- Understand and describe the breath of traumatic events and victim populations
2- Understand and assess PTSD risk factors, symptomatology and comorbidities
3- Understand acute traumatic stress reactions and the principles and basic strategies of crisis intervention
4- Understand the principles of primary evidence-based treatments for PTSD
5- Provide traumatized clients with psychoeducation and basic coping strategies
6- Self-assess for vicarious traumatization and utilize self-care strategies

* CPSY Departmental Attendance Policy

Class attendance is expected and required. Any missed class time will be made up by completing extra assignments designed by the instructor. Missing more than ten percent of class time may result in failure to complete the class. This would be 4.5 hours of a 45 hour class (3 credits), 3.0 hours for a 30 hour class (2 credits) or 1.5 hours for a 15 hour class (1 credit.) In case of extreme hardship and also at the discretion of the instructor, a grade of incomplete may be given for an assignment or the entire course. In such cases, the work to be submitted in order to remove the incomplete must be documented appropriately and stated deadlines met. Students are expected to be on time to class and tardiness may be seen as an absence that requires make-up work.
