LEWIS & CLARK COLLEGE
GRADUATE SCHOOL OF EDUCATION AND COUNSELING
MCFT 562: ADVANCED FAMILY THERAPY
FALL 2014

When: Wed: Section 1, 8:45am-12:00pm; Thursday Section 2, 8:45am-12:00pm
Where: TBA
Instructor: Teresa McDowell, Ed.D., LMFT
Office Hours: Call CPSY office for apt (503-768-6060)
E-Mail: teresamc@lclark.edu

CATALOG DESCRIPTION
Introduction to the practice of systemic family therapy through approaches based on contemporary/emergent models: brief, narrative, meaning/language systems-based, competence-based, and functional family therapy. Conceptual understanding and acquisition of specific treatment skills through training videos and live observations are emphasized. Builds upon CPSY 504 by focusing on the interventive aspects of family therapy through case examples, role play, and, when possible, live observations of actual clinical work at participating mental health sites.

COURSE DESCRIPTION
This course integrates conceptual and practice skills in couple and family therapy by examining current advances in the field. First, common factors and social justice approaches will be examined to provide a foundational and integrative framework. Second, various approaches in the field of MCFT that were surveyed in previous coursework (e.g., CPSY 504), will be studied in depth. It is designed to help students gain a greater ability to understand how these key theoretical approaches and techniques, as well as advanced systemic concepts, can be applied in the actual marriage and family therapy practice. Models that will be covered include Structural, Strength Based-Solution Oriented, Intergenerational, Narrative, and Critical-Social Justice oriented approaches. Students will be exposed to clinical vignettes and case scenarios that demonstrate the application of the theories in couple and family therapy practice.

OBJECTIVES:
Students will be able to:
1. Deepen their understanding of the theoretical and empirical foundations, and contemporary conceptual directions and debates in the field of MCFT. (CC 5.3.8; KS 01, 02, 05, 06)
2. Survey the major family therapy models, including major contributors, theoretical assumptions, assessment, treatment planning, and intervention strategies/skills of each. (CC 1.1.2, 6.1.1; KS 01, 02)
3. Explore, compare, and contrast in depth the theory and interventions associated with at least two major models of family therapy. (KS 05; CC 1.1.1)
4. Integrate and summarize the personal, social, professional and political factors that influence clinical practice and its effects on clients and therapists as assessed in class participation and personal essays. (PM)

5. Consider the fit of approaches with families in social, political and economic context, and know the appropriateness of models, modalities, and/or techniques, which are most effective for presenting problems. (CC 3.1.1; TS 3.03, 3.06, 3.09)

6. Recognize strengths and limitations (e.g., cultural deficits) of specific therapy models. (CC 4.21)

7. Identify those common factors that are connected to effective treatment outcome in MCFT, and to be able to practice them in classroom settings as a preparation for actual clinical settings.

NON-DISCRIMINATION POLICY/SPECIAL ASSISTANCE
Lewis & Clark College adheres to a nondiscriminatory policy with respect to employment, enrollment, and program. The College does not discriminate on the basis of race, color, creed, religion, sex, national origin, age, handicap or disability, sexual orientation, or marital status and has a firm commitment to promote the letter and spirit of all equal opportunity and civil rights laws.

SPECIAL NEEDS/ ACCOMMODATIONS
If you need course adaptations or accommodations because of a disability and/or you have emergency medical information to share please make an appointment with the instructor as soon as possible.

TEACHING METHODS
A variety of teaching methods will be utilized during this course in order to achieve the above objectives. Among those methods will be assigned readings, class discussions, reflecting team exercises and experiential activities, and lectures. Students will watch videos clips and engage in group learning tasks and role play demonstrations.

REQUIRED TEXTS & READINGS:
Weekly readings are to be completed for the day indicated. Students are expected to be prepared to discuss the ideas and concepts discussed in the readings. You are responsible for all of the assigned readings, whether or not they are discussed in class. Please note that there are more readings assigned for some topics than for others.

Additional readings are as follows and are assigned according to date in the course schedule below. You are responsible to retrieve these articles from Watzik Library. They are available electronically from the library through journal article search engines.

**CPSY DEPARTMENTAL ATTENDANCE POLICY**

Class attendance is expected and required. Any missed class time will be made up by completing extra assignments designed by the instructor. Missing more than ten percent
of class time may result in failure to complete the class. This would be 4.5 hours of a 45 hour class (3 credits), 3.0 hours for a 30 hour class (2 credits) or 1.5 hours for a 15 hour class (1 credit.) In case of extreme hardship and also at the discretion of the instructor, a grade of incomplete may be given for an assignment or the entire course. In such cases, the work to be submitted in order to remove the incomplete must be documented appropriately and stated deadlines met. Students are expected to be on time to class and tardiness may be seen as an absence that requires make-up work.

DISCLOSURE OF PERSONAL INFORMATION
The Commission on Accreditation for Marriage and Family Therapy Education (COAMFTE) requires the program to have “established policies for informing applicants and students regarding disclosure of their personal information” (COAMFTE Standard 140.02, 2003). Each student should decide for him/herself what information to disclose. Students are advised to be prudent when making self disclosures. The program cannot guarantee confidentiality of student disclosures given the group environment, although personal comments should be considered private and confidential – and remain only in the classroom – unless an exception to confidentiality applies.

CELL PHONES
Cell phones must be silenced and text messaging is not allowed during class time. If there is an emergency you may exit the class to use your cell.

ASSIGNMENTS AND COURSE REQUIREMENTS

1. Attendance and participation in all classes (5 points)
   - Attending all classes and being on time.
   - Giving attention to the instructor and/or other students when they are making a presentation.
   - Demonstrating ability to recognize and use subtle non-verbal communication cues to assess your impact on your peers and participate in class.
   - Demonstrating ability to be open about discussing the impact of your comments on your peers.
   - Coming to class prepared (having read the assignment for the day)
   - Contributing to in-class discussion based on the topics of discusses and the readings assigned. Contributions may include how you feel about the material but merely articulating your feelings is not sufficient. You are expected to put those feelings in context of your thoughts and analysis of the material.
   - Engaging in group discussions with attention and energy.
   - Asking questions of the instructor and/or other students regarding the material examined in that class.
   - Providing examples to support or challenge the issues talked about in class.
- Making comments or giving observations about topics in the course, especially those that tie in the classroom material to "real world" problems, or try to integrate the content of the course.
- Dealing with other students and/or the instructor in a respectful fashion.
- Listening actively. Students will be asked questions related to the course’s readings randomly in class by other students and by the instructor. Your participation in small group discussions is also required.
- Adhering to all Professional Qualities. The form for evaluating Professional Qualities requirements will be distributed in class.

2. **Case conceptualization paper (15 pages max) (80 Points)**

Describe a scenario of a family or a couple (1-2 pages) and the presenting problem. Then address the following:

1. The clients’ presenting problems and opportunities for change as shaped/influenced by their social location. Include power dynamics within the family and how these are influenced by larger systems;
2. Apply a model of family therapy to the case. Make sure to identify specific MCFT concepts and techniques you would use to work with this family/couple;
3. Develop a treatment plan with specific goals that are congruent with your therapeutic model; and
4. Identify how your approach attends to common factors for therapeutic change.

Your paper will be evaluated on all areas in the rubric below, including:
- Professional appearance of paper. (APA style, spelling, sentence structure, etc.)
- Accuracy and thoroughness of your referencing the literature.
- Completion of all required elements of the paper
- Integration of social location and context with treatment issues, therapeutic model, goals, and treatment strategies.
- Clarity in explanation of your integrated model.

Papers should be typed APA style with all references appropriately cited, must be edited and checked for correct grammar. This paper is heavily weighted for professional writing skill and format. It is important that if needed you seek assistance for your writing with the instructor early in the semester.

### 3. Case Consultation (15 points)
Prepare to share your case and consult with colleagues during the final day of class. Complete a Supervision Worksheet found on-line under MCFT Program Forms: http://graduate.lclark.edu/live/files/15388-supervision-worksheetpdf

Under the section “Goals for Supervision” list consultation goals for your discussion with your colleagues in class. Leave the final sections, which refer to supervisor input, blank. Bring 6 copies to class. This includes one copy to turn in During small group discussions class participants will hand this information out before working toward listed goals within work groups. All group members will critique and provide feedback.

### EVALUATION AND GRADING
Because of the skill development nature of this course it is required that students complete ALL assignments to pass this class.

Students will spend the equivalent of this class time watching a video of the model they are using for the course assignment. Videos can be found in the library or checked out from the instructor. Those unable to find a video of their model will spend this time researching the model on websites and on-line clips. Students are encouraged to watch videos and discuss in small groups.
