Catalogue Description
Supervised experience as a school psychologist. Direct weekly supervision is provided by a field-based licensed school psychologist and indirect supervision by the course instructor. Interns provide school psychology services in consultation, counseling, assessment, intervention development, and program evaluation with K-12 students in special and regular education settings. Regular seminar meetings allow for group supervision and the examination of legal, ethical, and professional issues. A comprehensive examination of school psychology is included. Seven semester hours over the course of a year.

Guiding Principles/Standards in Course

| Learning Environments --Create democratic learning communities in which caring, equity, social justice, and inclusion are practiced and diverse perspectives, supported. | X |
| Content Knowledge --Integrate fundamental and emergent components of disciplinary knowledge in ways that extend learners’ experience and enhance their own and students’ capacity to solve problems. | X |
| Teaching Approaches --Engage students and school personnel in meaningful learning experiences responsive to individual differences, interests, developmental levels, and cultural contexts. | X |
| Connection to Community --Design educational activities that cultivate connections between learners and their communities and region. | X |
| Educational Resources --Incorporate a wide range of teaching and technological resources from the school and community into experiences that support learning. | X |
| Assessment --Assess, document, and advocate for the successful learning of all students and school stakeholders. | X |
| Research and Reflection Adopt habits of personal and scholarly reflection that examine professional practice and lead to systemic renewal. | X |
| Leadership and Collaboration --Lead and collaborate with others to plan, organize, and implement educational practices and programs that confront the impact of societal and institutional barriers to academic success and personal growth. | X |
| Professional Life --Pursue a professional identity that demonstrates respect for diverse peoples, ideas, and cultures. | X |

Authorization Levels:
This Course addresses preparation at specific authorization levels through reading and in-class discussions (indicate with an “R” in the appropriate box) and/or through a practicum experience (indicate with a “P” in the appropriate box).

tnicholson@lclark.edu

Catalog Description:  
Supervised experience as a school psychologist. Direct weekly supervision is provided by a field-based licensed school psychologist and indirect supervision by the course instructor. Interns provide school psychology services in consultation, counseling, assessment, intervention development, and program evaluation with K-12 students in special and regular education settings. Regular seminar meetings allow for group supervision and the examination of legal, ethical, and professional issues. A comprehensive examination of school psychology is included. 7 semester hours over the course of a year.

Textbooks:  
Thomas, A. & Grimes, J. (Eds.) (2008). Best practices in school psychology V. Bethesda, Maryland: NASP.

Course Description:  
The internship experience is designed to provide students with the final year of training to obtain the EdS in School Psychology and/or eligibility for licensure in Oregon and national certification through the National Association of School Psychologists. Interns function as practicing school psychologists in a K-12 school environment, under the close supervision of licensed, experienced school psychologists on-site and on campus. Interns will provide school psychology services in consultation, counseling, assessment, intervention development, and program evaluation. Regular on-campus seminar meetings allow for group supervision and for instruction in a variety of current issues. Cultural diversity issues will be interwoven through professional case presentations. Legal, ethical, and professional standards will be addressed throughout the course. In addition, as the year progresses and interns near completion of their training, assistance in preparing for the job search process will be provided.

Requirements:  
1. Students will complete a 1200-hour internship in the public schools. These 1200 hours will include at least 50 hours of preschool work, 100 hours at the elementary level, and 100 hours at the secondary level. Students must complete at least 100 hours of consultation and 50 hours of counseling. Assessment work is to be no less than 20% and no more than 40% of the internship experience.  
2. Students will complete at least two hours of supervision with on-site supervisors throughout the year and complete class time for group supervision with the Lewis and Clark supervisors. This will allow ample opportunity to discuss the process of developing independent skills to become a school psychologist.
3. Students will complete all paperwork as per the Internship Handbook; complete the coursework and complete graduation and licensure requirements.
4. Students will develop a professional portfolio for their own use to preserve work samples.
5. Students will become familiar with school district, state, and national norms for assessment, consultation, and counseling.
6. Students will complete reports of the students they assess; these reports must be signed by site supervisors. These reports will include interventions that are guided by assessment results.
7. Students will perform an efficacy study, showing the results of their interventions on one individual or specific group.
8. Students will participate in case presentations weekly, both formally and informally.
9. Students will develop topical presentations for class and an in-service for school staff.

The following NASP training domains will be addressed:
- Domain 1: Data-Based Decision Making and Accountability
- Domain 2: Consultation and Collaboration
- Domain 3: Interventions and Instructional Support to Develop Academic Skills
- Domain 4: Interventions and Mental Health Services to Develop Social and Life Skills
- Domain 5: School-Wide Practices to Promote Learning
- Domain 6: Preventive and Responsive Services
- Domain 7: Family-School Collaboration Services
- Domain 8: Diversity in Development and Learning
- Domain 9: Research and Program Evaluation
- Domain 10: Legal, Ethical, and Professional Practice

Non-Discrimination Policy and Special Assistance: Lewis & Clark College adheres to a nondiscriminatory policy with respect to employment, enrollment, and program. The College does not discriminate on the basis of race, color, creed, religion, sex, national origin, age, handicap or disability, sexual orientation, or marital status and has a firm commitment to promote the letter and spirit of all equal opportunity and civil rights laws. If you need course adaptations or accommodations because of a disability and/or you have emergency medical information to share please make an appointment with the instructor.

Course Structure: The internship class is a year-long experience. The on-campus seminar is offered on Friday afternoons. Part I is offered in the fall; Part II and III are offered in the spring and summer.

Usually, group supervision will proceed as follows:
- 1:00-2:00 pm -- Special topic presentations
- 2:00-3:00 pm -- Formal case presentations
- 3:00-4:00 pm -- Group supervision

Before and after class, there will also be opportunities for individual consultation with the college supervisor by arrangement.
Interns will meet together with their Lewis and Clark campus supervisor and their site supervisor(s) a minimum of one time for individual supervision in the fall semester and thereafter as needed to meet individual learning goals as determined by either supervisor or by student request. There will be at least one meeting during the fall semester, including the intern, the on-site supervisor, and the campus supervisor.

**Professional Standards:**
Interns are expected to follow professional standards, including adherence to legalities and ethics. In addition, interns need to show a respectful demeanor towards students, parents, professional peers, and others. Professional dress is expected.

Interns are expected to use appropriate professional tools, including technological tools, as needed and appropriate. Interns are expected to be aware of and respect diversity and multicultural issues.

**Attendance:**
Interns are expected to meet deadlines; they must honor class attendance expectations. Department policy is that students may miss one class each semester, with appropriate make-up work, but if two classes are missed, the student is in danger of failing the class. If Interns miss or are tardy for a class, their grade will be impacted and they need to discuss required make-up work with the campus supervisor. Interns with sites >100 miles from the campus will make individual arrangements with the campus supervisor regarding campus supervision.

Please Note: Interns are required to inform the campus supervisor immediately of absences from their internship site that exceed 1 day per month.

**Assignments:**

1. **Reports: Assessments/Interventions:** Interns are expected to gain experience with a wide variety of students, ages 3-21, throughout the year. At a minimum, interns will complete three full assessments (one in the fall, two in the spring) and will follow most of these cases from the time of the initial referral through intervention (or IEP) to progress monitoring. These three assessment/intervention reports and appropriate rewrites will be reviewed and graded by the LC campus supervisor. Please note that ALL reports generated by interns over the course of the internship will be reviewed, edited and co-signed by the primary on-site supervisors.

Interns should seek to assess children with a variety of possible disabilities, including Specific Learning Disabilities, Mental Retardation, and Emotional Disabilities. In addition, interns should look for opportunities to assess children who may be Gifted, Autistic/PDD, Other Health Impaired, or Traumatic Brain Injury. All identifying information must be removed from the final reports that you include in your portfolio, but identifying information may be included in the reports you give your Lewis and Clark supervisor. The final report must be for a student who qualified for Specific Learning Disability.

2. **Consultation/Efficacy Report on Effects on Student Learning and/or Environment (SP Internship Form 7).** A written report consisting of at least 5-8 pages is required.

3. **Presentations:**
**Informal Presentations:** Each week, during group supervision, interns are expected to come prepared to informally present information on cases (response to interventions, counseling, assessment, and consultation) on which they are working. The purpose of these informal presentations is to receive feedback and support from the cohort and college supervisor.

**Formal Case Presentations:** In addition to these weekly discussions, one formal case presentation will be required each semester. Specific dates will be assigned for the presentations. These presentations will include:

- One formal presentation of an assessment/Intervention case is required in the fall. It consists of pertinent information from the written report.
- One formal presentation of a consultation/efficacy case is required in the spring. Please note that we would expect that you would start the consultation relationship during the fall semester and start documenting the background and your process. Your presentation will include a narrative description of the written report. Also included in your report must be a reflection on what you learned from the consultation, including what was successful and what you would change. When you present, please bring copies of any tools (observation forms, etc) that you used in your consultation.

4. **Topic Presentation:**
Each intern is expected to choose a topic pertinent to school psychology and present in the Fall Semester. Copies of a one-page summary, with references in APA style, will be provided to the entire cohort. Topics from Best Practices V are acceptable. All other topics must be approved by the LC supervisor.

5. **In-Service:**
Interns are required to plan and provide at least one in-service training/workshop during the school year. Be prepared to share results and handouts during class meetings.

6. **Log of Activities and Hours:**
Interns must document (in hard copy) that they have met at least the following hour requirements:

- 1200 hours of internship related activities
- 100 hours in an elementary setting; 100 hours in a secondary setting; 50 hours in a preschool setting; settings are those defined by your school district
- 100 hours of consultation; 50 hours of counseling
- 100 hours with “regular” education students
- **2 hours a week of individual on-site field supervision, at least one of which must be with your primary on-site supervisor and consists of regularly scheduled, dedicated time to supervision. The second hour may be with your primary or secondary on-site supervisors. **

Ideally, this requirement is not met in informal, brief supervisory communications and is expected to be uninterrupted by phone calls or other activities of the supervisor or intern. These meetings are expected to be scheduled regularly on a weekly basis. If one of you must miss the meeting due to illness or other crisis, the meeting time must be rescheduled during the week.
Logging requirements: Document everything you do on the job and who you are working with including students, teachers, parents, school staff, outside agencies, etc. This would include anything you do for your job including consultation, counseling, assessments, class work, supervision, emailing, researching topics, review of records, and so forth. In addition, a final one-page summary of your hours is required at the end of the fall semester and at the end of program. (See SP Internship Form 4.)

7. Comprehensive Examination: Interns must complete the Praxis II. This will fulfill the requirements of the comprehensive examination. The exam must be completed by April 18, 2015.
