Catalogue Description:

This course provides an opportunity for students to do in-depth exploration of specialized topics or practices related to ecopsychology and to gain experience in various roles such as counselor, therapist, educator, activist, consultant, or researcher. Course focus and format varies given year and instructor. Topics have included children and nature, environmental advocacy, writing workshop, and horticultural therapy.

Through field-based experiences, students will gain first-hand experience in outdoor and nature based counseling and psychotherapy contexts including horticultural therapy, urban walking and outdoor therapy, equine-assisted therapy, nature-based mindfulness exercises and group retreat work. The course
includes one night of overnight camping at an equine therapy retreat center with facilities. Food and group equipment is provided. No previous experience is necessary. Students will receive a personal gear and clothing list before the course.

Prerequisites: None.  
Credits: 1 semester hour  
Fees: 80.00

**Course Details:**

- This is a one-credit weekend field course that will take place mainly off-campus.  
- Class activities will balance didactic presentations with exercises, role-plays, outdoor activities, video presentations, and guest speakers.  
- The class includes outdoor activities. Please dress appropriately for the weather.

**Course Requirements:**

1. Full attendance, including active and informed participation in discussions and class activities.  
2. All students are required to have a valid email address, and to use the course Moodle page.  
3. Post Course Reflection and Integration Paper

**Evaluation and Assessment:**

*Attendance:* Full class attendance is required. There is no effective “make up” or alternative to class attendance. Consult the instructor regarding any absences in advance. Lack of attendance in class sessions may be grounds for an incomplete.

*Evaluation:* Written and oral presentations will be evaluated on the basis of their clarity, thoughtfulness, and integration of themes and issues of the class. Detailed competency examples are below.

*Grading:* A grade of A will be reserved for comprehensive and exemplary work that demonstrates emerging mastery or a professional standard. A grade of B+ will be the benchmark for satisfactory completion of assigned tasks. Grades of A-, B, B- will be applied to work that adds to or are missing required aspects. C papers and presentations will be returned for revision. Some course activities will be ungraded and some will be pass/fail. The instructor reserves the right to use subjective judgments regarding grading.
Disability, Diversity and Sustainability:

Disability Services: If you have a disability that may impact your academic performance, you may request accommodations by submitting documentation to the Student Support Services Office in the Albany Quadrangle (x7156). After you have submitted documentation and filled out paperwork there for the current semester requesting accommodations, staff in that office will notify the instructor of the accommodations for which you are eligible.

Diversity, Culture & Accommodations: The instructor will make efforts to recognize diversity, culture and individual differences in the classroom and to create a safe and collegial learning environment for all students. Please contact the instructor regarding any special needs or accommodations required.

Sustainability: We are all encouraged to consider personal and environmental impacts associated with this course. This includes reducing or mitigating high impact behaviors through: efficient use of energy and resources (e.g., turning off lights, computers and power strips when not in use), using alternate or communal forms of transportation (e.g., carpools, biking; see commuter tips below) and using recycled paper, double-sided printing, or printing on the blank side of previously used papers (clearly draw a line through non-course content). Required Readings & Videos:

Written Work:

Reflection and Integration Paper DUE: Friday 5/27/16

1. Introduction Paragraph: Briefly preview key points to be discussed in the paper (e.g., 3-5 sentences)

Part I: On Nature-based Therapy
2. Describe what you consider to be nature-based therapy, using concrete examples and references to the readings, and your experience is on the weekend course. Discuss how nature-based methods or philosophies may differ from other forms of counseling or therapy and what may be in common with other counseling or therapy efforts. Integrate examples of relevant points from the class readings.

Part II: Experiences on the Course

3. Describe your personal experiences, insights, new learnings and challenges during the weekend course. Be sure to reference different aspects of the course including the hospital visit, the therapist panel, and the activities and talks at Heron Hill. Use concrete examples and stories. Share any goals you have for the future.

Part III: Applying Nature-based Therapy

4. Describe an intervention--either real or imagined--that applies nature-based therapy techniques. This may be for a person, a client, a treatment or issue group, a diagnosis or problem, an agency or practice setting, etc. Provide a brief case study that includes the focus of intervention, the rationale and intended outcomes and how the intervention may work. Briefly reference any ethics, informed consent, or risk management considerations that are important to consider with your intervention.

5. Closing Paragraph: Briefly summarize what was discussed in the paper, capturing the sequence of your ideas. (e.g., 203 sentences).

6. Reference List

Details:

- Suggested length: 5-8 pages, double spaced, layout in APA style. Label sections I-III. Cite references in the text and list references at the end of the paper.

- Post to the Moodle Assignment forum (special students can email to instructor).

- Ensure that the document title includes your name, class, and the assignment title. Ensure the file the document is saved to also includes your name and the class.
