Major Assignments:

1. Constructing Your Future Professional Experiences. (30 points)

In this *brief* assignment, describe your ideal professional experience(s). Feel free to describe both your short and long-term hopes and plans for your professional career. This assignment should be a minimum of one paragraph and no more than three paragraphs. *This assignment should be submitted via e-mail to instructor.*

2. Developing Expertise. (40 points)

What's your niche? What's your specialty? Whether you plan to immediately go into private practice or work for a community agency, having a niche in the field of counseling can be extremely beneficial when it comes to searching for a job or building up a clientele. The objective of this short paper is to describe, in detail, either an area of expertise in the counseling profession that you already have or one that you plan to work on developing. For example, have you been working with trauma survivors and have accrued substantial skills working with trauma and clients with post-traumatic stress disorder? If so, describe what makes this area your specialty and what you plan to do to continue to sharpen current skills and develop new ones? How would you present your expertise to a potential employer or how would you market yourself to potential clients?

This paper should be 1 - 2 pages maximum. *This assignment should be submitted via e-mail to instructor.*

3. Advocacy Public Service Announcement. (30 points)

Advocacy continues to be a part of many counselors' professional careers and is a part of our ethical standards as professional counselors. This assignment tasks you with creating a public service announcement for a social justice advocacy topic of your choice. While not required, feel free to use your advocacy topic from CPSY 550: Diversity and Social Justice. This assignment should be brief and think of it as something that could be read on the radio. For example, how would you educate the public in one minute or less on the impact of long-term trauma on survivors of intimate partner violence? How would you present the need for children from low-income families to have access to nutritious food? Or the need for more mental health services for veterans returning from war? This should be something that would pull for supportive buy-in from the general public.

This should be no more than one page. These will be shared in class and should be submitted to the instructor via e-mail.

Grading Summary:
