CPSY DEPARTMENTAL ATTENDANCE POLICY

Class attendance is expected and required. Any missed class time will be made up by completing extra assignments designed by the instructor. Missing more than ten percent of class time may result in failure to complete the class. This would be 4.5 hours of a 45 hour class (3 credits), 3.0 hours for a 30 hour class (2 credits) or 1.5 hours for a 15 hour class (1 credit.) In case of extreme hardship and also at the discretion of the instructor, a grade of incomplete may be given for an assignment or the entire course. In such cases, the work to be submitted in order to remove the incomplete must be documented appropriately and stated deadlines met. Students are expected to be on time to class and tardiness may be seen as an absence that requires make-up work.

DISCLOSURE OF PERSONAL INFORMATION

Each student should decide for her/him/themself what information to disclose. Students are advised to be prudent when making self-disclosures. The program cannot guarantee confidentiality of student disclosures given the group environment, although personal comments should be considered private and confidential – and remain only in the classroom – unless an exception to confidentiality applies.

CELL PHONES

Cell phones must be silenced and text messaging is not allowed during class time. If there is an emergency you may exit the class to use your cell.

Students will present twice in Fall term a case to explore in depth and to dialogue with peers for feedback and consultation. Each student will create or bring to class, examples of client's work for discussion. The student should prepare and display the artwork, label (if applicable) provide a brief (10-15 min) synopsis of the bio/psycho/social overview of the client in the treatment setting. Student should prepare a clinical question to pose to the class.

NOTE: As mentioned this class differs from the Internship class yet there is some crossover. It works best if students do not introduce cases they have taken or will take to Internship Seminar 582 except under unusual circumstances. ARTWORK

Two or three long term projects are required for this class that spans over both terms, 2 credits in Fall and 1 credit in Spring. They may comprise the entire body of art work for the class, or they may be part of a larger body of work. They may be related, connected to each other or stand alone. It is expected that they will demonstrate intensive involvement

with the creative process, thoughtful reflection on concepts relating the art to the experience of being a student therapist, and awareness of the psychological properties of art media/art processes and the visual language. You may use journaling as part of these projects or may simply use your journal as a resource in writing your papers.

The suggested projects are:

- Altered Book or a book entirely of your own making
- 3-dimensional construction using at least 3 forms of attachment
- Portrait(s)

Suggestions

Concurrently with your “big project” each term, you could develop a daily art/writing journal with responses to therapy sessions visually recorded, immediately and quickly after each session (individual and group). You might choose to use these quick impressions as the basis for one or more bigger art project(s); or you may find it useful to depict your therapeutic relationship with one client each week representing yourselves working together. Then look at the art from the perspective of how the visual language and the processes with media may reflect countertransference or other significant aspects of the therapy. These spontaneous experiences and reflections can provide the basis for more developed work.

	Work conveys investment of time, critical thought and reflexivity	2

FINAL PAPER

It is expected that you will approach your art work seriously, creatively and in ways that will help you arrive at a deeper understanding of the art therapy process, your treatment relationships with clients and your own experiences as an art therapy counseling intern. Since development of awareness of self-care skills is part of the purpose of the class, students are expected to address this in their papers. Your insights are to be included in the papers accompanying each project (5-8 pp. each). Integrate at least 3-5 sources from related readings into the paper.
