

Research Methods in Counseling / Advanced Research Methods Syllabus Cover Sheet

Required Objectives:

Professional Counseling Identity (CACREP 2016 Standards)

- 7g. statistical concepts, including scales of measurement, measures of central tendency, indices of variability, shapes and types of distributions, and correlations
- 8a. the importance of research in advancing the counseling profession, including how to critique research to inform counseling practice
- 8b. identification of evidence-based counseling practices
- 8c. needs assessments
- 8e. evaluation of counseling interventions and programs
- 8f. qualitative, quantitative and mixed research methods
- 8g. designs used in research and program evaluation
- 8h. statistical methods used in conducting research and program evaluation
- 8i. analysis and use of data in counseling
- 8j. ethical and culturally relevant strategies for conducting, interpreting, and reporting the results of research and/or program evaluation

Methods of Instruction for this Course

Instruction Method	Mark All That Apply
Lecture	X
Small Group Discussion	X
Large Group Discussion	X
Course Readings	X
Group Presentation	X
Individual Presentation	X
DVD/Video Presentation	
Supervised Small Group Work	
Individual/Triadic Supervision	
Group Supervision	
Case Study	
Debate	
Class Visitor / Guest Lecturer	
Off-Campus / Field Visit	
Other: Data Collection Simulation	X

Key Required Assignments/Student Learning Outcomes

These assignments are required for the course, but **will not be the only requirements/expectations**. The chart below lists the assignment, method of submission, and benchmark score/grade. These assignments are set up for upload to Taskstream and/or instructor provides rating for assignment. See syllabus for details.

	Proficient (A)	Benchmark (B)	Emerging (C)	Inadequate/ Fail	As evidenced by:	Program Objective

2.F.8 Research and Program Evaluation						
PO. 9.2 Students summarize and critique research relevant to counseling, addictions, and/or clinical mental health	93-100% Assignment scores	83% -92% Assignment scores	80-82%	Below 80% Assignment scores	MHC 535: Qualitative Article Summary/ Critique	9. Research and Assessment (2 of 7)
PO 9.2 Students summarize and critique research relevant to counseling, addictions, and/or clinical mental health	93-100% Assignment scores	83% -92% Assignment scores	80-82%	Below 80% Assignment scores	MHC 535: Quantitative Article Summary/ Critique	9. Research and Assessment (2 of 7)

	Proficient (A)	Benchmark (B)	Emerging (C)	Inadequate/ Fail	As evidenced by:	Program Objective
2.F.8 Research and Program Evaluation						
PO 9.3 Students understand models and methods of program evaluation	93-100% Assignment scores	83% -92% Assignment scores	80-82%	Below 80% Assignment scores	MHC 535: Program Evaluation Article Summary/Review	9. Research and Assessment (3 of 7)

	Proficient (A)	Benchmark (B)	Emerging (C)	Inadequate/ Fail	As evidenced by:	Program Objective
2.F.8 Research and Program Evaluation						
PO. 9.4 Demonstrates an understanding of various types and designs of research relevant to counseling.	93-100% Assignment scores	83% -92% Assignment scores	80-82%	Below 80% Assignment scores	MHC 535: Group Project: Development of a hypothetical mixed methods research proposal	9. Research and Assessment (4 of 7)

COURSE SYLLABUS
Lewis & Clark College
Graduate School of Education and Counseling

Course Name	Research Methods in Counseling
Course Number	MHC 535
Term	Fall 2018
Department	Counseling Psychology
Textbooks/Materials	See attached
Faculty Name	Carol Doyle
Faculty E-mail	cdoyle@lclark.edu
Faculty Office	Rogers Hall 317

Catalog Description:

Foundations of psychological research. Students are introduced to qualitative and quantitative research processes and basic concepts. Topics include (1) elements of the research process; (2) types of designs, program evaluation; (3) ethical considerations of research: informed consent, research with diverse and vulnerable populations, research with children, human subjects review; (4) basic measurement concepts: validity, reliability, norms, score interpretation; and (5) basic statistical concepts: frequency distributions, central tendency, measures of variability, correlation, normal curve, hypothesis testing, significance tests. Students read and evaluate examples of published research. Reviews Web-based resources for conducting research.

Course Description:

This course covers the essential concepts related to research design and methodology that practitioners need to become critical evaluators of research and prepare for conducting research in their practices. Focus is on understanding each component of the research process, qualitative and quantitative designs, program evaluation, measurement issues, and data analysis,

Course Goals and Objectives:

The primary goal of this class is to have students gain a more complete understanding of the research process which would allow them to critically analyze published research and/or be able to conduct independent research. It is assumed that this knowledge and skill will in turn allow students to evaluate research in their field(s) of expertise from a critical and informed perspective.

The objectives of this class will be to provide opportunities to learn and apply the skills necessary for critiquing and conducting research. Emphasis will be on the following components of the research process: research questions and hypotheses, research design including qualitative research, action research and program evaluation, definition and operationalization of variables, and measurement issues. The impact of culture on research design and analysis will additionally be addressed. By the end of the semester students will be able to:

- Identify various paradigms for conducting research
- Identify each of the steps involved in the development of a research project
- Write research questions and hypotheses
- Understand the ethical issues involved in working with human participants
- Identify and describe various types of quantitative research designs
- Identify and describe various types of qualitative research designs

- Identify the components and models of program evaluations, including needs assessments
- Identify and describe validity issues inherent in different types of designs
- Discuss the use of research findings for program change
- Discuss the issues involved in conducting real world research
- Discuss the impact of culture on various aspects of the research process
- Critically evaluate published research articles
- Design a proposal for research project

Course Calendar: See attached

Course Requirements: See attached

Overall, the requirements of the course include, in class and out of class assignments, article summaries and critiques, a research article critique guide, a research methods glossary, and a group research project.

Attendance requirements: Class attendance is expected and required. Any missed class time will be made up by completing extra assignments designed by the instructor. Missing more than ten percent of class time may result in failure to complete the class. This would be 4.5 hours of a 45 hour class (3 credits), 3.0 hours for a 30 hour class (2 credits) or 1.5 hours for a 15 hour class (1 credit.) In case of extreme hardship and also at the discretion of the instructor, a grade of incomplete may be given for an assignment or the entire course. In such cases, the work to be submitted in order to remove the incomplete must be documented appropriately and stated deadlines met. Students are expected to be on time to class and tardiness may be seen as an absence that requires make-up work.

Accommodations for Students with Special Needs and/or Disabilities:

If you have a disability that may impact your academic performance, you may request accommodations by submitting documentation to the Student Support Services Office in the Albany Quadrangle (x7156). After you have submitted documentation and filled out paperwork there for the current semester requesting accommodations, staff in that office will notify me of the accommodations for which you are eligible. Please notify me of any special learning considerations that I should be aware of so that we can work together to make the appropriate accommodations.

Authorization Levels: All levels

Evaluation and Assessment:

Each assignment will be graded via a point system. Generally speaking, the following grades can be associated with the points for each assignment and for the final grade

93% of points possible	-	A
90 – 92% points possible	-	A-
88 – 89% or points possible	-	B+
83 - 87% of points possible	-	B
80 – 82% points possible	-	B-
78 – 79% or points possible	-	C+
73 - 77% of points possible	-	C
70 – 72% of points possible	-	C -
Less than 73%	-	D/F (Fail)

Additionally, please note that if the basic requirements for an assignment the points given will be associated with a B+. If one exceeds the requirements of the assignment there point total will improve accordingly, Similarly, if the assignment does not meet the requirements point total will decrease accordingly. The points associated with each assignment are attached.

Late papers and assignments: Any assignments turned in late (without previous permission) will automatically receive a 10% reduction in grade.

Accommodations for Students with Special Needs and/or Disabilities:

If you have a disability that may impact your academic performance, you may request accommodations by submitting documentation to the Student Support Services Office in the Albany Quadrangle (x7156). After you have submitted documentation and filled out paperwork there for the current semester requesting accommodations, staff in that office will notify me of the accommodations for which you are eligible. Please notify me of any special learning considerations that I should be aware of so that we can work together to make the appropriate accommodations.

Advising Hours: By apt until Oct 15. Then Fridays 10:00 – 1:00 (after Oct 15; T/Th (by appt)

*“Research is always carried out by an individual with a life and a lifeworld ..., a personality, a social context, and various personal and practical challenges and conflicts, all of which affect the research, from the choice of a research question or topic, through the method used, to the reporting of the project’s outcome. Most research textbooks do not bring the living reality of you, the researcher, into the discussion of research. We believe that the person is always at the center of the process in inquiry – that you will always be at the center of your own research, which in turn will always be a part of you” (Bentz, V. M. & Shapiro, J. J. (1998). *Mindful Inquiry in Social Research*, p 4.)*

Course Description

Foundations of psychological research. Students are introduced to qualitative and quantitative research processes and basic concepts. Topics include (1) elements of the research process; (2) types of designs, program evaluation; (3) ethical considerations of research: informed consent, research with diverse and vulnerable populations, research with children, human subjects review; (4) basic measurement concepts: validity, reliability, norms, score interpretation; and (5) basic statistical concepts: frequency distributions, central tendency, measures of variability, correlation, normal curve, hypothesis testing, significance tests. Students read and evaluate examples of published research. Reviews Web-based resources for conducting research.

Assignments and Points

Class Participation	75
Out of class/In class Assignments	75
Design Games	25
Article Summary Discussions	40
Article Summary/Critiques (3)	105
Critique Questions	10
Group Project	125

Final grades will be based on a 450 point total and will be distributed as follows:

418 and above	A
405 - 418	A-
396 - 404	B+
473 - 495	B
360 - 472	B -
351 - 359	C/C+ (No Credit)
24 - 350	C – (No Credit)
below 324	Fail

Required Texts:

Mertens (2015). *Research & Evaluation in Education & Psychology* (4th Ed). Thousand Oaks, CA: Sage.

American Psychological Association (2010). *Publication manual of the American Psychological Association*. (6th Ed.). Washington, DC: American Psychological Association.

Tentative Schedule of Classes

<u>Date</u>	<u>General Topic</u>	<u>“Official” Topic</u>	<u>Readings for Class</u>	<u>CACREP Objectives</u>	<u>Assign/Hmwrk Due</u>	
Sept 6	<p>Introduction</p> <p>Overview of Research Process Importance for Counselors Research Questions Types of Research</p> <p>Your Goals</p>	<p>Class overview</p> <p>Research Process</p> <p>Overview of differences: Qualitative Quantitative and Evaluation Approaches</p>	<p>Mertens 1 pp. 3 & 6</p> <p>Mertens Chap 1 – Ch 11 318 - 327</p>	Lecture: CACREP 8a,f	In class Assignment	5 pts
Sept 13	<p>What is my research worldview?</p> <p>What, how and who shall I study?</p> <p>What is the purpose of my research – what problem am I addressing Research questions</p> <p>Reviewing the Literature Format of Proposals/Articles</p> <p>Who will my participants be? Research Ethics</p>	<p>Frameworks/ Paradigms/lenses</p> <p>Connection to design/approach</p> <p>Sampling & Ethics Defining populations and samples</p>	Mertens Ch 1& 3, Ch 11 318-327, 337-347	Lecture: CACREP 8j	Light Survey Due	25 pts
Sept 20	Research on the Job	Program Evaluation & Needs Assessment	Mertens Ch 2	Lecture: CACREP 8c,e, g, j	Reference page	8 pts
					Bring program evaluation article to class	

Sept 27	Understanding Quantitative Research Hypotheses Sampling in Quantitative	Overview of Quantitative Research Experimental Causal Comparative Probability Sampling	Mertens 4 - 7 Review Mertens Ch 11 pp 327 – 331; 344 - 347	Lecture: CACREP, 8a, f, g	Program Evaluation Summary Due Bring Quantitative article(s) to class	40 pts
Oct 4	What will my “intervention” look like? What will my “outcome” look like? What is it an operationalization of RQ How will I analyze my data Am I measuring what I think? Choosing Instruments	Designing & Operationalizing Independent & Dependent Variables Psychometric Issues Norms & Standardization Reliability and Validity Psychometric Issues Reliability and Validity	Mertens 12 pp. 364 - 378	Assignment: CACREP 8f, 8g	In class assignment	8 pts
Oct 11	What design will I use? Surveys and other designs Basic Descriptive Statistics	Outcome Research Single Subject Descriptive Overview of Statistical Concepts: Descriptive Statistics Normal Curve Standard Scores SEM	Review Mertens 4-7 Mertens 13 pp. 417 – 422; 426-7 Add'l reading	Lecture: CACREP 8f, 8g Assignment: CACREP 7g,8f, 8g	Bring Survey Article to Class Assignment	7 pts

Oct 18	<p>How will I analyze my quantitative data</p> <p>How do I interpret my results?</p>	Analyzing Data Inferential Statistics	Mertens 13 422- 437 Add'l reading	Lecture: CACREP 7g, 8h, 8i Assignment: CACREP 8a	<p>Quant article summary -</p> <p>In class assignment</p>	20 pts
Oct 25	<p>Qualitative Methods</p> <p>Qualitative Questions</p> <p>Choosing a Qualitative Approach</p> <p>Who will my participants be?</p>	Determining Type of Qualitative Approach Qualitative Sampling	Mertens 8 & 9 Mertens 11 pp.331-339	Lecture: CACREP 8f, 8g Assignment: CACREP 8a	<p>Quant Critique Due</p> <p>In class Assignment</p>	35 pts 5 pts
Nov 1	Types of Qualitative Data Collection Strategies		Mertens 12 378 - 394	Lecture: CACREP 8f, 8g	Assignment	18 pts
Nov 8	<p>Qualitative Data Collection cont'</p> <p>Cultural Artifacts</p> <p>Focus Groups</p> <p>Interviews</p> <p>Ensuring the quality of Qualitative Data collection</p>				Qualitative Article Summary – in class	20 pts
Nov 15	Analyzing and Interpreting Qualitative Data	Qualitative Data Analysis Confirmability Transferability	Mertens 12 pp. 404- 414 Mertens 13 437 – 447	Lecture: CACREP 8i, 8j Assignment: CACREP 8a	Qualitative Critique Due	40 pts
Nov 22	<i>Fall Break</i>	<i>No class</i>				
Nov 29	<p>What other types of research might I use in my future practice</p> <p>Conceptual Therapy/</p>	Review of Mixed Methods Transformational Designs Process Research PAR Group critique	Mertens 10; 12 p. 378; 13 pp. 431- 2 Mertens 8 237-9	Lecture: CACREP 8f, 8g Assignment: CACREP 8a	<p>Lit review for grp project due</p> <p>Work on Design Games/Research Comp</p>	

Dec 6	Group Projects Final Pt 1 Putting it all together (Understanding Process)	Group Projects		Assignment: CACREP 8f, 8g	Design Games & Research Compilation Due In class Critique questions	25 pts/ 30 pts 8 pts
Dec 13	Group Projects Final Discussion Research Game Night	Group Projects		Assignment: CACREP 8f, 8g		130 pts
