

Section 4. Display of Annual Reporting Measures

CAEP will “Monitor how the EPP publicly reports candidate performance data and other consumer information on its website.” (Policy 6.01; p. 21-22, CAEP [Accreditation Policy](#))

Accordingly, each EPP is responsible for prominently displaying data pertaining to the Annual Reporting Measures on its website.

The EPP can select the data it presents on its website as long as the data are appropriate to CAEP’s Annual Reporting Measures and accurately represent the preparation programs.

Annual Reporting Measures (CAEP Components 5.4 A.5.4)	
Impact Measures (CAEP Standard 4)	Outcome Measures
1. Impact on P-12 learning and development (Component 4.1)	5. Graduation Rates (initial & advanced levels)
2. Indicators of teaching effectiveness (Component 4.2)	6. Ability of completers to meet licensing (certification) and any additional state requirements; Title II (initial & advanced levels)
3. Satisfaction of employers and employment milestones (Components 4.3 A.4.1)	7. Ability of completers to be hired in education positions for which they have prepared (initial & advanced levels)
4. Satisfaction of completers (Components 4.4 A.4.2)	8. Student loan default rates and other consumer information (initial & advanced levels)

As shown above, the requirement to widely disseminate and display the annual reporting measures is located in Components 5.4 and A.5.4 of the CAEP Standards. EPPs accredited under the NCATE standards or TEAC quality principles were required to publicly display candidate performance data. Section 4 includes and builds from that approach by including the Annual Reporting Measures. In alignment with Component 5.4, providers are also asked to summarize the data and trends represented in the provider’s Annual Reporting Measures, which allows EPPs to prepare for writing a self-study report and to use the EPP Annual Report as a repository and source for working toward Component 5.4.

All EPPs are required to submit an Annual Report to CAEP, including “how the EPP publicly reports candidate performance data and other consumer information on its website,” per Policy 6.01. This consumer information is required to be made publicly available includes Title II data per Policy 8.01.
