Lewis & Clark College
Professional Mental Health Counseling & Professional Mental Health Counseling – Specialization in Addictions, MHC 582/583, Mental Health Internship
Syllabus Cover Sheet

Required Objectives:

Professional Counseling Identity (CACREP 2016 Standards)

1e. advocacy processes needed to address institutional and social barriers that impede access, equity, and success for clients.
1i. ethical standards of professional counseling organizations and credentialing bodies, and applications of ethical and legal considerations in professional counseling
1l. self-care strategies appropriate to the counselor role
2h. strategies for identifying and eliminating barriers, prejudices, and processes of intentional and unintentional oppression and discrimination.
3c. theories of normal and abnormal personality development
3d. theories and etiology of addictions and addictive behaviors
3e. biological, neurological, and physiological factors that affect human development, functioning, and behavior
5b. a systems approach to conceptualizing clients
5c. theories, models, and strategies for understanding and practicing consultation
5f. counselor characteristics and behaviors that influence the counseling process
5g. essential interviewing and counseling skills
5k. strategies to promote client understanding of and access to a variety of community based resources
5l. suicide prevention models and strategies
5m. crisis intervention, trauma-informed, and community-based strategies, such as Psychological First Aid
7b. methods of effectively preparing for and conducting initial assessment meetings
7c. procedures for assessing risk of aggression or danger to others, self-inflicted harm, or suicide
7d. procedures for identifying trauma and abuse and for reporting abuse
7e. use of assessments for diagnostic and intervention planning purposes
7m. ethical and culturally relevant strategies for selecting, administering, and interpreting assessment and test results
8b. identification of evidence-based counseling practices
8d. development of outcome measures for counseling programs
8i. analysis and use of data in counseling

**Entry-Level Specialty: Clinical Mental Health Counseling (CACREP 2016 Standards)**

- **C2a.** roles and settings of clinical mental health counselors.
- **C2e.** potential for substance use disorders to mimic and/or co-occur with a variety of neurological, medical, and psychological disorders
- **C2l.** legal and ethical considerations specific to clinical mental health counseling
- **C2m.** record keeping, third party reimbursement, and other practice and management issues in clinical mental health counseling
- **C3a.** intake interview, mental status evaluation, biopsychosocial history, mental health history, and psychological assessment for treatment planning and caseload management
- **C3b.** techniques and interventions for prevention and treatment of a broad range of mental health issues
- **C3c.** strategies for interfacing with the legal system regarding court-referred clients
- **C3d.** strategies for interfacing with integrated behavioral health care professionals
- **C3e.** strategies to advocate for persons with mental health issues

**Methods of Instruction for this Course**

Spring 2019 MHC 582/583 Adult/Child Mental Health Internship
3 credits, CR/NC, Mondays 9-12 biweekly
Stella Beatriz Kerl-McClain, Ph. D.
Rm 328 Rogers Hall
Office: 503-768-6770; cell: 503-841-0333
sbk@lclark.edu

Office hours:
Tuesday & Thursday afternoons + other times as arranged

Please email me to make appointments for office hours! If I have no appointments scheduled during office hours, I may schedule meetings or other appointments during those times. Make sure I confirm the appointment through Google calendar (that means you accept the invitation I sent to you).

Course Description: This class provides clinical supervision and education for intern counselors working with adults and/or children in their supervised community experience. The class will emphasize developing and applying a repertoire of concepts and strategies for case conceptualization, treatment planning, intervention strategies and skills, and ethical conduct in working with clients presenting a wide variety of individual and relationship issues.

Catalogue Description: Internship in a community setting. Participants engage in counseling and related professional activities under supervision. Students write reports, prepare case histories, and submit work samples for supervisory review.

Textbook:
ALL STUDENTS MUST READ ARTICLES/READINGS FROM MOODLE LINKS AS ASSIGNED

Note: If you have a disability that may impact your academic performance, you may request accommodations by submitting documentation to the Student Support Services Office in the Albany Quadrangle (x7156). After you have submitted documentation and filled out paperwork there for the current semester requesting accommodations, staff in that office will notify me of the accommodations for which you are eligible.

Methods of Evaluation:
- Sharing current experiences in your internship to sound out with peers
- Participation in discussion and feedback to client/site/supervision issues of peers
- One comprehensive written case conceptualizations and presentation over the semester (video preferred, not required but optional)
- Documentation of work completed
- Site supervisor’s evaluation of performance
- Satisfactory performance on the Professional Qualities Evaluation Form

Requirements for credit:
- Complete a minimum of 240 hours of supervised direct counseling/client contact with individuals, couples, families and groups combined over 2 semesters at assigned internship sites, other hours to total 600 over 2 semesters.
- Complete one written case presentation/extended check-in)
• Submit weekly documentation of supervision [CARE note] session to faculty supervisor during class uploaded two weeks at a time.
• Satisfactory evaluations from on-site supervisor and on-campus instructor/ supervisor. This includes satisfactory responses to ethical dilemmas and challenges.
• Attendance and active participation in on-campus intern supervision class for two full semesters.
• Demonstration of ability to accept and respond responsibly to both site and campus supervision.
• Demonstration of ability to work collaboratively with colleagues at the internship site and on campus.

NOTE: This is a credit/no credit course for two semesters. Your credit for both semesters will be deferred until you have completed all requirements for the internship after the second semester. This includes completion and documentation of all hourly requirements for client contact and supervision, satisfactory evaluation by your supervisor for both semesters, your evaluation of the internship site, and class requirements listed above.

Attendance: Class attendance is expected and required. Any missed class time will be made up by completing extra assignments designed by the instructor. Missing more than ten percent of class time may result in failure to complete the class. This would be 4.5 hours of a 45 hour class (3 credits), 3.0 hours for a 30 hour class (2 credits) or 1.5 hours for a 15 hour class (1 credit.) In case of extreme hardship and also at the discretion of the instructor, a grade of incomplete may be given for an assignment or the entire course. In such cases, the work to be submitted in order to remove the incomplete must be documented appropriately and stated deadlines met. Students are expected to be on time to class and tardiness may be seen as an absence that requires make-up work. Being 30 minutes late to class or leaving 30 minutes early (except when class is dismissed early) will be considered one absence.

A Note on Confidentiality: Much of our class discussion and most of the written work you do for this class will contain information about clients. All such private information falls within our shared responsibility for maintaining its confidentiality and protecting the privacy of our clients. Guidelines for fulfilling our responsibilities in this regard include the following:

• Written materials referring to clients should either refer to them by their initials or a by a pseudonym. If the materials are copied and contain the client’s name, the name should be blocked out with a black felt tip pen.
• Videotapes of client counseling sessions should be kept secure and should be erased when they have been viewed.
• Classroom doors will be closed when we are discussing cases or viewing videos of actual clients.
• Written materials you turn in for review must follow confidentiality guidelines.
• Remember, what we talk about in the classroom STAYS IN THE CLASSROOM!

Class Structure:
First part of class: Group supervision—Each intern will share how they are doing, challenges they are having personally or professionally, or issues related to their internships/clients. Each intern will identify one client (see brief conceptualization requirement) or a topic they need to discuss. This can
be a client, a site issue, a personal issue related to functioning as a counselor, career issues, etc. If you do not discuss an issue, we will question and question you about everything that is going on!

Note: Issues involving suicide, child abuse reporting, or major ethical considerations should always be discussed!

Second part of class: Comprehensive Case Summary/Conceptualization (aka extended check-in) on scheduled date.

Guidelines for Comprehensive Case Summary/Extended Check-In:
Due one time per semester

Structure of Presentations
• Before talking about the client, present a brief overview of your theoretical orientation demonstrated in a non-written/non-narrative way. This might be a chart, drawing, painting, dance or extended metaphor. Our feedback will be, in part, designed to help you to find a better fit between your theory and your work with clients (about 10 minutes)
• After completing the interpretive theoretical orientation presentation and before presenting the client, clearly communicate to the class the reason you chose this client and the type of feedback you hope to receive. Say what you hope will be different for you after the presentation.
• Handout of presentation MUST INCLUDE ALL CATAGORIES LISTED BELOW (uploaded to Moodle the night before class). Must also upload to Taskstream!!
• Review/present written case emphasizing theoretical conceptualization (15 minutes)
• Class discussion and feedback 20-40 min

Handout must include ALL of following sections/areas. List EACH numeral (so that ALL of them are listed) as categories, and if the category is non-applicable, state this under the category. DO NOT OMIT ANY OF THE FOLLOWING CATEGORIES:
  I. What you want from the class in relation to feedback, advice, knowledge, etc. Communicate the reason you chose this client and what you hope will be different after your presentation.
  II. Chief complaint/presenting problem
  III. Demographic data
  IV. History of the present illness
  V. Family issues/influences
  VI. Psychiatric/Medical: Medical/RX history for client and family
  VII. Substance Use, Abuse, Dependence History: Client and Family
  VIII. Cognitive/Affective/Behavioral/Physical Status (mini Mental Status Exam)
  IX. Client strengths/weaknesses
  X. Diagnostic Summary: DSM-5 diagnosis and brief explanation
  XI. Treatment plan consistent with your theoretical orientation (include short-term goals and longer term, theory-consistent objectives.
  XII. Transference/Counter transference issues
  XIII. Ethical Issues involved
