MCFT 504-01 & 02  FAMILY THERAPY: THEORY AND PRACTICE
FALL 2019

Time & Day:  Section 1—Wednesday 9:00-12:15
             Section 2—Wednesday 1:00-4:15
Place:       York 117
Instructor:  Wonyoung L. Cho, PhD, LMFT
Office Hours: Fridays 12:00-1:30
E-Mail:      wonyoungcho@lclark.edu
Office:      Rogers Hall 425

CATALOG DESCRIPTION
Overview of the fundamental assumptions and ideas of general systems theory and the basic
premises of theoretical orientations within family therapy.

Prerequisite: None
Credit: 3 semester units  (45 contact hours)

MCFT STUDENT LEARNING OUTCOMES
This course promotes the following student learning outcomes:

SLO1.1:   Students recognize the impact of power on individuals, families, and
          communities.

SLO1.3:   Students apply systems/relational theories to clinical case conceptualization and
          treatment planning.

COURSE OBJECTIVES
At the end of this course, students are expected to:

1.  Understand concepts and theories that are foundational to the practice of marriage,
    couple, and family therapy, as well as trends in the field.
2.  Survey the major family therapy models, including major contributors, theoretical
    assumptions, goals, and intervention strategies/skills of each.
3.  Recognize strengths and limitations (e.g., cultural deficits) of specific therapy models.
4. Explore, compare, and contrast in depth the theory and interventions associated with at least two major models of family therapy.

5. Identify those common factors that are connected to effective treatment outcome in MCFT.

6. Consider the fit of approaches with families in social, political and economic context, and know the appropriateness of models, modalities, and/or techniques, which are most effective for presenting problems.

**A note about the nature of this course:** This course involves role play. For your learning to be effective, this will require that you take on the experience of the clients and the ways they construct their identities. Other times, you may be asked to bring your own personal experience into the role of client. At such times, students should determine which experience they wish to process. Be aware that when the role plays work well, hidden or “unthickened” stories of self and/or other(s) may emerge.

**CLASS ASSIGNMENTS**

I. **Participation (30 points)**
This course emphasizes shared reflection on the personal and professional implications of the assigned readings and the implications of these for the practice of marriage, couple, and family therapy. Toward this end, you are expected to:

- Attend and participate in all class meetings. In the event of illness or other emergency, please email the instructor and arrange an alternative in advance of class.
- Come to class prepared (having read the assignments for the day).
- Give attention to the instructor and/or other students when they are speaking.
- Contribute to in-class discussion based on the topics of discussions and assigned readings.
- Participate in small group discussions and role-plays.
- Take a relational approach to social justice
  - Learn through mutual dialogue (rather than debate)
    - Share and receive one another’s stories
    - Value the uniqueness of each voice
    - Be open to changing your perspective
    - Practice reflective self-awareness
  - Discern the influence/limits of own context
  - Be mindful of impact on others—accountability

*Updated September 24, 2019*
○ Clarify values and their source
○ Seek complexity
○ Engage the personal, the emotional
  ■ Embrace both/and
  ■ Take risks
○ Engage differences
  ■ Imagine alternatives (this is a form of resistance)
  ■ Active engagement = vulnerability
○ Take responsibility
  ■ For your actions
  ■ For unearned privilege
  ■ For being proactive about repair

Your participation in class activities will be evaluated according to the following:

II. Responsive Reflection: Naming and locating our worldviews (10 points)
Your responses to these questions are meant to prime you for class discussion and critical thinking, rather than value/moral judgements of your answers.

- Provide your own answer questions 1-7 listed on pp. 20-21 of Sire (2015).
- Then answer the following reflective question:
  - How do your answers to previous set of questions inform, reflect, and/or relate to your desire to become a family therapist?
  - How does it shape how you define the role of a family therapist?

Your Responsive Reflection will be evaluated according to the following:

<table>
<thead>
<tr>
<th></th>
<th>Marginal (0-1 pts)</th>
<th>Proficient (2-3 pts)</th>
<th>Accomplished (4-5 pts)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Responses to the 7 questions from the reading</td>
<td>Does not demonstrate engagement with questions; the activity was not completed on time</td>
<td>Demonstrates surface level of engagement with the questions; the answers and reflections are legible but incoherent and difficult to read</td>
<td>Demonstrates thoughtful and complete engagement with questions; The answers and reflections are legible and coherent</td>
</tr>
<tr>
<td>Reflection to the reflective questions listed above</td>
<td></td>
<td></td>

III. Theory Summaries (30 points)
After reading the theory chapters from McDowell, Knudson-Martin, & Bermudez (2019), summarize your understanding of the theories to prepare for class, as well as for future reference when studying for the licensing exam. These 1-page summaries are due at the end of each class that the readings are due. There will be a total of 10 required by the end of the semester, each worth 3 points.

Based on your reading and knowledge of this particular theory, how would you define the following?

- The Problem
- The Solution
- How change happens
- The role of the therapist
- The role of the client(s)

Updated September 24, 2019
These Theory Summaries will be graded on the level of completion:

<th>Marginal (0-1 pts)</th>
<th>Proficient (2 pts)</th>
<th>Accomplished (3 pts)</th>
</tr>

<tbody>
<tr>
<td>The answers to the five prompts are incomplete</td>
<td>The answers to the five prompts are complete, but does not demonstrate full levels of thoughtful engagement with theories presented in readings</td>
<td>The answers to the five prompts are complete; demonstrates levels of understanding and engagement with systems of thinking in the theories presented in readings</td>
</tr>

IV. Critical Genogram (10 points)
This exercise offers students the opportunity to practice completing a genogram while gaining awareness of their own family dynamics with a socio-cultural context.

Please follow the guidelines in Kosutic, Garcia, et al.’s article and bring a genogram to class on October 9th. You will use this genogram for assignment(s) in MCFT 511: Equity in Family Therapy. Additional information about completing your genogram as well as the rubric for evaluation will be offered in class.

V. Final Case Conceptualization paper (80 points)

You will be given a case scenario in class. Your paper will be based on the family and presenting problem described in the scenario. You must upload your paper into Task Stream by the end of day (11:59 PM) December 13, 2019.

Your paper must include all of the following:
1. Discussion of the family’s presenting problems and opportunities for change as shaped/influenced by their social location. Include power dynamics within the family and how these are influenced by larger systems.
2. Application of two models of family therapy to the situation, including goals from the perspective of each model. Make sure to identify major model concepts and the specific techniques you would if you were the therapist in the situation described. Make sure you demonstrate a deep working knowledge of both models.
3. A contrast and comparison of your two chosen family therapy models. Discuss how each of the models might fit or not fit for the family. What would the therapist need to know about the family and need to do to increase the fit and applicability of each model?
4. Identification of common factors that the therapist should pay attention to for therapeutic change with the family.

Updated September 24, 2019
Your paper will be evaluated on all areas in the rubric below, including:

- Professional appearance of paper (APA style, spelling, sentence structure, etc.)
- Accuracy and thoroughness of your referencing the literature.
- Completion of all required elements of the paper.
- Integration of social location and context with treatment issues, therapeutic model, goals, and treatment strategies.
- Clarity in explanation of the models you are applying including main concepts, application to case example, goals, and specific interventions.

Papers should be typed APA style with all references appropriately cited. They must be edited and checked for correct grammar. This paper is heavily weighted for professional writing skills and format. It is important that if needed you seek assistance for your writing with the instructor early in the semester.

The Final paper will be graded on the following:

<table>
<thead>
<tr>
<th></th>

### CPSY DEPARTMENTAL ATTENDANCE POLICY

Class attendance is expected and required. Any missed class time will be made up by completing extra assignments designed by the instructor. Missing more than ten percent of class time may result in failure to complete the class. This would be 4.5 hours of a 45 hour class (3 credits), 3.0 hours for a 30 hour class (2 credits) or 1.5 hours for a 15 hour class (1 credit.) In case of extreme hardship and also at the discretion of the instructor, a grade of incomplete may be given for an assignment or the entire course. In such cases, the work to be submitted in order to remove the incomplete must be documented appropriately and stated deadlines met. Students are expected to be on time to class and tardiness may be seen as an absence that requires make-up work.

### DISABILITY SERVICES STATEMENT

If you have a disability that may impact your academic performance, you may request accommodations by submitting documentation to the Student Support Services Office in the Albany Quadrangle (503-768-7192). After you have submitted documentation and filled out paperwork for the current semester requesting accommodations, staff in that office will notify me of the accommodations for which you are eligible.

### DISCLOSURE OF PERSONAL INFORMATION

Each student should decide for him/herself what information to disclose. Students are advised to be prudent when making self-disclosures. The program cannot guarantee confidentiality of student disclosures given the group environment, although personal comments should be considered private and confidential – and remain only in the classroom – unless an exception to confidentiality applies.
CELL PHONES
Cell phones must be silenced and text messaging is not allowed during class time. If there is an emergency you may exit the class to use your cell.

EVALUATION & GRADING
