GSEC Initial Licensure Programs: Passrates, by program, matriculation AY, & exam AY

*Scores on exams other than those required for a student's license/endorsement are not included in this dataset.

*n = Candidates attempting the exam; Rept = number of repeaters; AvgReptAtt = average number of repeat attempts per repeater; StdDevReptAtt = standard deviation of repeat attempts; HS Min/Max/Avg/Passrate = High-score Min/Max/Avg/Passrate

*Average score & passrate calculated w/ highest score per student per exam.

*State mean scores reported out of ResultsAnalyzer prior to 11/2019 system update vary from state means provided thereafter. Benchmark data reported here are laregly the values from the old system; however some exam years for which we did not have data on file from the old system use the values from the new system.

*State means scores for Praxis exams from Title II data.

*State mean left blank for exam years where benchmark data is unavailable.

*Data as of 4/23/20

Program	Matric AY	Test Title	Exam AY	n	Rept	Avg Rept Att	StdDev Rept Att	#Not Passing	HS Min	HS Max	HS Avg	HS Passrate	State Mean
