

GSEC Advanced Programs: Passrates, by program, matriculation AY, & exam AY

*Scores on exams other than those required for a student's license/endorsement are not included in this dataset.

*n = Candidates attempting the exam; Rept = number of repeaters; AvgReptAtt = average number of repeat attempts per repeater; StdDevReptAtt = standard deviation of repeat attempts; HS Min/Max/Avg/Passrate = High-score Min/Max/Avg/Passrate

*Average score & passrate calculated w/ highest score per student per exam.

*State mean scores reported out of ResultsAnalyzer prior to 11/2019 system update vary from state means provided thereafter. Benchmark data reported here are laregly the values from the old system; however some exam years for which we did not have data on file from the old system use the values from the new system.

*State means scores for Praxis exams from Title II data.

*State mean left blank for exam years where benchmark data is unavailable.

*Data as of 4/23/20

Program	Matric AY	Test Title	Exam AY	Avg									
				n	Rept	Rept Att	StdDev Rept Att	#Not Passing	HS Min	HS Max	HS Avg	HS Passrate	State Mean
ESOL	2015-2016	NES - ESOL - before 4/17/17	2015-2016	23	0			0	241	288	269.6	100.00%	258.6
	2016-2017	NES - ESOL - after 4/17/17	2016-2017	23	0			0	228	288	263.5	100.00%	258.0
	2017-2018	NES - ESOL - after 4/17/17	2017-2018	15	0			0	248	289	270.6	100.00%	258.2
	2018-2019	NES - ESOL - after 4/17/17	2018-2019	24	0			0	231	290	267.0	100.00%	255.8

ESOL candidates' mean high scores were above the state means and the national cut score of 220, for every matriculation year and exam year reported. Additional exam years for each matriculation year not reported through due to n < 10.

Trends: Mean high scores on the NES ESOL exam dipped somewhat for the 2016-17 matriculation year, but recovered in 2017-18 and 2018-19.

Program	Matric AY	Test Title	Exam AY	Avg									
				n	Rept	Rept Att	StdDev Rept Att	#Not Passing	HS Min	HS Max	HS Avg	HS Passrate	State Mean
School Counseling	2015-2016	NES - School Counselor - before 4/17/17	2016-2017	14	0			0	237	318	270.9	100.00%	264.3
	2016-2017	NES - School Counselor - after 4/17/17	2017-2018	24	0			0	242	282	263.1	100.00%	258.0
	2017-2018	NES - School Counselor - after 4/17/17	2018-2019	19	0			0	232	290	265.7	100.00%	263.4

School Counseling candidates' mean high scores were above the state means and the national cut score of 220, for every matriculation year and exam year reported. School Counseling candidates from the 2018-19 matriculation year are still active in the program and have not taken their exams yet. Additional exam years for each matriculation year not reported through due to n < 10.

Trends: Mean high scores on the NES School Counselor exam dipped somewhat for the 2016-17 matriculation year, but recovered in 2017-18. This pattern mirrors the the trend in the state means.

Program	Matric AY	Test Title	Exam AY	Avg									
				n	Rept	Att	StdDev	#Not	HS	HS	HS	HS	State Mean
School Psychology	2016-2017	Praxis - Praxis II School Psychologist - after 9/01/14	2017-2018	17	0			0	161	185	176.7	100.00%	
	2017-2018	Praxis - Praxis II School Psychologist - after 9/01/14	2018-2019	21	0			0	161	195	177.6	100.00%	

School Psychology candidates' mean high scores on the Praxis School Psychologist exam were above the NASP passing score of 147, and the ETS-reported national median score, for every matriculation year and exam year reported. (The national median score was 169 or 170 in all available years—see https://www.ets.org/s/praxis/pdf/uyps_1819.pdf and its prior iterations). School Psychology candidates from the 2018-19 matriculation year are still active in the program and have not taken their exams yet. Scores from the 2015-16 matriculation year were split between two exam years, and were not reported through due to n < 10 on each. Additional exam years for each matriculation year not reported through due to n < 10.

Trends: Mean high scores on the Praxis School Psychologist exam have remained relatively steady over time.

Exams for our reading interventionist and special education programs not reported through due to n < 10.
