Course Description:

This class is designed to provide instruction and supervision to first and second semester practicum students working with clients at the Lewis and Clark Community Counseling Center. Students will receive live supervision and feedback as designated by CACREP requirements. The focus of the class will be to provide ethical and competent client care while working within the parameters of time (typically one semester), student theoretical orientation and client issues/goals. Skills that will receive particular attention will include developing a therapeutic relationship, counselor empathy and compassion. The recognition of the impact of race, culture, gender, sexual orientation and poverty as well as other societal and political influences that define the context of the therapeutic relationship will be highlighted as well. A beginning knowledge of client assessment and the development of treatment planning (including articulating the goals, objectives and interventions) will be developed. The establishment of a self-care practice and development of professional boundaries will be central as students become aware of counter-transference and vicarious trauma while growing professionally as a counselor.

Catalog description:

Working with clients in the practicum clinic, agency or school setting (8 to 10 hours per week, 100 hours total) under intensive supervision from CTSP faculty, developing the therapeutic relationship and basic counseling competencies. Students are expected to demonstrate personal

characteristics and professional conduct necessary for effective, ethical counseling. [Up to] two semesters, 3 credit hours each required.

Notice of Student Support Services:

If you require academic accommodations please contact the Student Support Services Office in Albany Quadrangle (503-76-7192 or access@lclark.edu). Once you complete the intake process and the accommodations agreement, you may request to send your accommodations letter. Student Support Services staff will then notify faculty of the accommodations for which you are eligible.

General Requirements:

Primary course requirements will include (a) attendance at synchronous Zoom supervision meetings, (b) completion of a written client case presentation, (c) submission of weekly CARE notes, and (d) timely submission of all required end-of-semester paperwork respective to your semester of practicum. There may also be additional tasks assigned on Moodle during the course of the semester. All Moodle tasks must be completed by the provided date and time listed on the assignment. **This course is graded on a credit/no credit basis; credit will be received if all assignments have been completed satisfactorily and you have met all attendance, participation, and paperwork requirements.**

Tech Requirements:

The main learning platforms for this class will include Moodle and Zoom. Moodle will be used as the primary course site and is where students will access information related to this course, any relevant learning modules, and all course materials. Log in to moodle.lclark.edu using your Lewis & Clark ID to access our class. Zoom will be used for synchronous class sessions. The Zoom link for each triad or small group will be provided via Google calendar invite.

If you have questions about accessing and using Moodle, visit [Lewis & Clark's Moodle Resources page](#). Moodle and tech support is also available by email at ITservice@lclark.edu or by phone at 503-768-7225. IT's summer hours are 9-5, Monday to Friday. If you call, leave a message and they will call you back.

Recommended Reading:

There is no assigned textbook for this course. Readings may be assigned throughout the semester based on group discussions and related topics. All additional readings will be posted on Moodle and should be read prior to the following class.

Course Requirements:

To successfully complete the clinical practicum, the student must satisfactorily complete a minimum of 100 clock-hours of counseling activities with at least 40 of these hours in direct contact with clients over the two semesters of practicum. Students must keep approved and complete documentation of client sessions and other documentation required by the Lewis and Clark Counseling Center. Students must receive minimal 1s and no 0s on the Professional Qualities Evaluation and must perform at a satisfactory level on the Practicum Evaluation Form. Activities that can be counted toward the 100 hours may include such professional activities as

consultation, coordination, supervision, documentation, case conceptualization, and research/study/learning related to counseling or client issues. In the course of completing these activities, the student will be expected to demonstrate a wide variety of counseling techniques and communication skills. At the end of the semester, the student must document the amount of time they were engaged in these activities, and submit to your instructor.

Assignments:

All assignments will be due at the start of class on the dates determined or outlined in the syllabus and are expected to be completed thoroughly and in a timely fashion. Most of the work in the Practicum Clinic is experiential and part of the therapy and administrative processes of the clinic, supervision segments and counseling relationship.

Practicum I & II - Case Conceptualization: During the course, students will do a thorough written case conceptualization of a client. The conceptualization will include the areas:

- Theoretical Approach
- Chief complaint/presenting problem
- Demographic Data
- History of present illness
- Psychiatric/Medical concerns
- Family/Environmental Stressors that can influence treatment
- Substance Use, Abuse, Dependence (history of client and family)
- Client strengths/weaknesses
- Diagnostic summary
- Treatment plan with theoretical orientation (treatment goals should be realistic, timely and measurable)
- Specific questions for feedback

Your written case conceptualization should be uploaded to Moodle no later than December 4, 2020 at Noon.

Important! Any off-site transport of counseling sessions recorded on-site at the Lewis & Clark clinic must be done so using an encrypted thumb drive. The required/recommended device is the IronKey Basic series e250 or d250.

Practicum II Students Only:

Those who will be full-time Practicum II students are *required* to take the Counselor Education Comprehension Exam (CECE) that will be offered virtually. Day/time for Fall 2020 is TBA. Part-time students will work with their advisor on the most appropriate timing to take the CECE.

Attendance:

It is essential that students attend each class session to receive credit for the required supervision and to provide reliable, ethical, and competent client care. Any missed classes will require the student to attend another practicum or internship section either the same week or the week immediately following the absence. It is up to the student to coordinate this with respective faculty instructors and obtain faculty approval to attend a different section. In the rare instance

extenuating circumstances make the prior arrangement extraordinarily difficult or impossible, make-up work may be assigned by faculty instructor. Make-up work may include any of the following:

- Written work including original research paper^[1]_{SEP}
- Transcription and written reflection of counseling session
- Professional reading with written review^[1]_{SEP}
- Other relevant assignment at discretion of instructor

Any planned absences must be discussed with and approved by the course professor at least two weeks in advance of the absence. **In case of illness and true emergencies, please notify site supervisor, Lewis & Clark Clinic director, and your client as soon as possible.** More than one absence a semester could result in a failure to complete the class. Any unexcused absences or failure to notify supervisors of absences will also result in the loss of supervision credit and counseling hours for that week as well as a meeting with the campus supervisor to determine outcome which might include receiving a failing grade for the class.

Missing more than ten percent of class time may result in failure to complete the class. In case of extreme hardship and also at the discretion of the instructor, a grade of incomplete may be given for an assignment or the entire course. In such cases, the work to be submitted in order to remove the incomplete must be documented appropriately and stated deadlines met. Students are expected to be on time to class and tardiness may be seen as an absence that requires make-up work.

Course Expectations & Notifications:

It is normal to experience occasional discomfort as you go through your training program. Learning can be challenging! Receiving feedback from your peers along with your instructor can be difficult at times, too. While this is a normal developmental process, should you have emotional difficulty throughout the course that is consistent and interferes with your participation, the following measures are available to support you:

- 1) Please feel free to contact me as soon as possible to discuss your concerns or thoughts. We can communicate outside of class time. I'm available via email, phone and to meet up in person. You can expect fair, direct and open communication from me as your instructor.
- 2) Feel free to contact your advisor or another administrative ally in the counseling program to discuss your concerns or needs.
- 3) You may also work on these concerns in the context of private counseling.

You are expected to learn about the operation and policies of the clinic and be ^[1]_{SEP} an active member of the community in regards to the daily operations. This includes understanding screening procedures, being knowledgeable of all intake paperwork, checking phone messages, ensuring clients are greeted/have intake paperwork, maintain appropriate confidentiality of conversation/written information while clients are in the clinic, walk your clients out of the treatment room, inform them where restrooms are, shut down the clinic at day's end, etc.

- You are expected to actively participate in group discussions and case consultations with your peers. This includes providing constructive feedback and offering possible new

perspectives on their work with clients. You will also be expected to actively participate in activities facilitated by your instructor during group supervision sessions weekly.

- Observe peer-counseling sessions and complete a written observation form to be given to the instructor/peer counselor.
- Complete all paperwork and progress/case notes in a timely fashion (same day of session with client) and obtain review and a signature from your instructor.
- You are not permitted to take any paperwork or identifying client information outside of the clinic.
- On a rare occasion, you may need to make phone calls to clients outside of clinic hours. In this case, you are required to block your personal telephone number using the *67 feature prior to each phone call.
- You are encouraged to fill out a weekly log that identifies how your hours were spent in the clinic.
- Decisions about client assignments will be made as needed. At times, these decisions will be made in collaboration with the instructor. The instructor reserves the right to assign a particular client to you without consultation.
- Your practicum supervisor may join you during a counseling session to advise, consult or redirect the session with your client. Please prepare your client for this possibility at the outset of the counseling relationship.
- It is your responsibility to inform your clients of your limited schedule, length of time in the clinic, how to contact you/the clinic. You are also responsible for following up with your client when they have missed session/no showed for an appointment. You are expected to call the same day your client misses their session especially if they have not left a message with the clinic.
- Please discuss any questions you have about the course, client care, clinic policy or procedures with the instructor of your course. Aside from overall clinic policy and procedure, all decisions about client care are made in consultation with the instructor of your course. ^[SEP]

Grading: ^[SEP]This class is graded using Credit/No Credit. Each student will be evaluated in the areas of counseling competence including use effective use of micro skills, theoretical knowledge, self-awareness, and ethical practice. Case presentations during group supervision, case conceptualization, effectiveness of oral and written communication, as well as openness to feedback and supervision will all be considered in the grade. Evaluation methods may include (any and/or all) written work, observation, tape or audio review, transcriptions, case presentations, supervisor evaluations and in class participation along with timely completion of all class assignments. Your instructor will make evaluation of satisfactory performance.

Additional notes about grades:

- The instructor will make final decisions about grading.
- Failure to complete class requirements, **including timely submission of required end of semester paperwork**, will result in a deferred grade and possible enrollment in an additional semester of practicum.
- Failure to complete the required number of direct service hours by the end of Practicum II will result in a deferred grade with the possible enrollment in an additional semester of practicum.
- Failure to follow Ethical Guidelines of the profession will require a meeting to determine the

next steps for addressing the concerns.

- Some students require more than two semesters of practicum to develop and demonstrate the requirements of a master's level counselor.
- Students must be ready to move onto Internship in order to pass Practicum.
- Occasionally personal issues or life events will make it impossible for a student to ^{SEP}move forward in their growth as a counselor and they will be encouraged or required to take some time off for self care. ^{SEP}

Course Clinical Requirements: Students must receive minimal 1s and no 0s on the Professional Qualities Evaluation (PQE) and must perform at a satisfactory level on the Practicum Evaluation Form.

Activities that can be counted toward the 100 hours may include such professional activities as observation/feedback, consultation, coordination, supervision, documentation, case conceptualization, and research/study/learning related to counseling or client issues. In the course of completing these activities, the student will be expected to demonstrate a wide variety of counseling techniques and communication skills. At the end of the semester, the student must document the amount of time they were engaged in these activities, and submit to your instructor.

End of Semester Paperwork:

All department paperwork can be found at:

http://graduate.lclark.edu/departments/counseling_psychology/mental_health/masters_degrees/evaluations_forms_handbooks/^{SEP}

At end the of the semester you will be required to fill out, obtain your supervisor's signatures, and turn in these documents to the Counseling, Therapy, and School Psychology Office before you can receive a passing grade. The forms that need to be completed and turned in are listed below.

CARE Notes: CARE notes are a one-page form to document weekly supervision during your practicum and internship. CARE notes should be submitted via Moodle on a **weekly** or **biweekly** basis. There should be approximately one CARE Note for every week of practicum or internship.

Ethical Guidelines: ^{SEP}Students are expected to follow the ethical guidelines put forth by the American Counseling Association and to seek supervision when there is case confusion or an

ethical dilemma to be resolved. Failure to follow ethical guidelines and/or non-disclosure of ethical problems and the seeking of appropriate supervision may result in dismissal from the practicum and/or counseling program. To follow ethical guidelines in relation to clients and to respect the work of our peers it is of fundamental importance that the contents of group discussion be regarded as absolutely confidential. [L] [SEP]

Confidentiality and Informed Consent: [L] [SEP] Students will make their clients aware they are enrolled in the M.A. or M.S. program in Counseling at Lewis and Clark College and that they are working under supervision. Clients should know that they are being observed and videotaped and that the counseling experience will be discussed for training purposes. Informed Consent, Professional Disclosure Statement, and other forms will be used with all clients that delineate what information about them will be used (and how it will be protected) and for what purpose. Clients under the age of 14 must have the forms signed by a parent or legal guardian. This informed consent is required in addition to any of the other forms. Students will be vigilant in keeping records and tapes secure during transportation for the purpose of keeping client information confidential.

Mandated Reporting:

Students will make mandated reports in accordance with Oregon law. Any questions about what constitutes a report or how to make a report should be immediately discussed with your instructor or the back-up supervisor. Students will utilize policies and forms related to making mandated reports as provided at the Lewis and Clark Community Counseling Center.
