Supervised Clinical Experience

Provide the following information about supervised clinical experience in 2018-19. (§205(a)(1)(C)(iii), §205(a)(1)(C)(iv))

Are there programs with student teaching models?

● Yes
○ No

If yes, provide the next two responses. If no, leave them blank.

Programs with student teaching models (most traditional programs)	
Number of clock hours of supervised clinical experience required prior to student teaching	273.5
Number of clock hours required for student teaching	660

Are there programs in which candidates are the teacher of record?

○ Yes
● No

If yes, provide the next two responses. If no, leave them blank.

Programs in which candidates are the teacher of record in a classroom during the program (many alternative programs)	
Number of clock hours of supervised clinical experience required prior to teaching as the teacher of record in a classroom	
Number of years required for teaching as the teacher of record in a classroom	

All Programs

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

THIS PAGE INCLUDES:
>> Teachers Prepared by Subject Area
>> Teachers Prepared by Academic Major

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- Academic Major

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2018-19.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. **(§205(b)(1)(H))**

What are CIP Codes?

☐ **No teachers prepared in academic year 2018-19**

If your program has no teachers prepared, check the box above and leave the table below blank (or **clear responses already entered**).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2018-19. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. **(§205(b)(1)(H))**

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

What are CIP Codes?

Do participants earn a degree upon completion of the program?

- ● Yes
- ○ No

☐ **No teachers prepared in academic year 2018-19**

If your program does not grant participants a degree upon completion, or has no teachers prepared, leave the table below blank (or **clear responses already entered**).

Program Assurances

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. **(§205(a)(1)(A)(iii); §206(b))**

Program Assurances

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- ● Yes
- ○ No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- ● Yes
- ○ No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- ○ Yes
- ○ No
- ● **Program does not prepare special education teachers**

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- ● Yes
- ○ No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- ● Yes
- ○ No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- ● Yes
- ○ No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- ● Yes
- ○ No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

We have coursework in ESOL and coursework or seminars in special education to prepare our candidates to meet the needs of their students who are limited English proficient and/or students with special needs. Our curriculum is aligned to the national SPA standards and we have both ESOL and SPED courses embedded in both of our preservice programs. We also have an MAT with ESOL Endorsement program that allows beginning teachers to earn an ESOL endorsement alongside their MAT degree program.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.
(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Please note that the goals you set last year are not pre-loaded into your report because the Department's changes to wording of the questions in this section make them incompatible for pre-loading from last year's data. Next year, your goals will be pre-loaded into your report based on the goals you enter this year.

In order to complete this section, you may find it helpful to review your goals in your 2019 report. You may download and review your 2019 report by following the following steps: 1) click the Home tab, 2) click "Academic Year 2018-19 Data" in the banner near the top of the page to expand the dropdown, and select "Academic Year 2017-18 Data," 3) Click Download Report.

Report Progress on Last Year's Goal (2018-19)

1. Did your program prepare teachers in mathematics in 2018-19?

If no, leave remaining questions for 2018-19 blank (or **clear responses already entered**).

- ● Yes
- ○ No

2. Describe your goal.

Our 2018-19 goal was to prepare 5 mathematics teachers.

3. Did your program meet the goal?

- ○ Yes
- ● No

4. Description of strategies used to achieve goal, if applicable:

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

Although we fell slightly short of our goal in 2018-19, we look forward to expanded STEM content area recruitment with the hiring of a new admissions director and the implementation of Graduate School diversity committee strategic initiatives currently underway.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. **(§205(a)(1)(B))**

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

Low-Performing

Provide the following information about the approval or accreditation of your teacher preparation program. **(§205(a)(1)(D), §205(a)(1)(E))**

Low-Performing

1. Is your teacher preparation program currently approved or accredited?

- ● Yes
- ○ No

If yes, please specify the organization(s) that approved or accredited your program:

- ☑ **State**
- ☑ **CAEP**
- ☐ **AAQEP**
- ☑ **Other specify:**

NWCCU

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

- ○ Yes
- ● No

Use of Technology

On this page, review the questions regarding your program's use of technology. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

Use of Technology

1. **Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. (§205(a)(1)(F))**

    Does your program prepare teachers to:

    a. **integrate technology effectively into curricula and instruction**

    - ● Yes
    - ○ No

    b. **use technology effectively to collect data to improve teaching and learning**

    - ● Yes
    - ○ No

    c. **use technology effectively to manage data to improve teaching and learning**

    - ● Yes
    - ○ No

    d. **use technology effectively to analyze data to improve teaching and learning**

    - ● Yes
    - ○ No

2. **Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.**

    Our teacher preparation programs integrate use of technology for instruction and data use into both general and subject-/level-specific courses and activities. Candidates utilize various forms of technology to gather, enter, and represent learning. Secondary candidates use Google Apps for planning & sharing lesson plans with mentors, supervisors, & instructors. Many also use Peardeck, a polling add-on for google slides, in their teaching. At the subject-area level, students in our math program use SMART Board technology, graphing calculators, and geogebra. Math candidates also review and evaluate the effectiveness of free online tools. In language arts, they explore the use of podcasts and other audio and video technologies in literature. In addition, our candidates learn about critical issues associated with use of media and mobile devices in schools. For example, they explore issues related to professionalism on social media platforms and creation of blogs & websites. Elementary candidates use Google Apps extensively for course assignments and within their classroom instruction. For example: (1) Using Google docs for student writing--candidates provide feedback in the document and students collaborate in the writing process digitally; (2) Candidates use Google sheets to create data displays (tables and graphs) depicting student assessment results; (3) Candidates learn how to use Google forms to create quizzes; (3) Candidates differentiate assignments using Google docs shared with individual students--appropriately leveled tasks provided to individuals or groups; (4) Candidates use Google slides for presentations in classes. All initial licensure candidates use a combination of Moodle (our LMS), TaskStream (our ePortfolio system), and Google Apps for course assignments and discussion fora. As part of their edTPA assessment, they learned to create, edit, and upload video of their teaching into an

eportfolio platform in several hands-on workshops. In the spring, all candidates successfully submitted their edTPA assessment for scoring by Pearson.

Teacher Training

Provide the following information about your teacher preparation program.
(§205(a)(1)(G))

Teacher Training

1. **Provide a description of the activities that prepare general education teachers to:**

    a. **Teach students with disabilities effectively**

    Our MAT programs design, implement, and evaluate curriculum to provide experiences for candidates to acquire and demonstrate the knowledge, skills, and professional dispositions necessary to help all students learn equitably. We are committed to preparing professionals whose work is rooted in the values of social justice, equity, and access in dynamic learning environments that foster caring, equity, and inclusion and promote diverse perspectives. The emphasis in our courses and field experiences is placed on inclusive, equitable educational practices in schools and communities. We continuously review our resources to ensure that we are providing our students with up-to-date research-based instructional materials and articles regarding effectively teaching students with disabilities. Program directors and course instructors collaborate on the materials we are using and what our assessments show in terms of teaching and supporting our candidates' abilities to support the needs of all K-12 learners.

    b. **Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act.***

    In our ELEM-MS MAT program, the Special Education for the General Education Teacher course (SPED 524) Study of special-education policies and procedures, as well as the legal, ethical, and professional responsibilities of the elementary classroom teacher. Topics include laws relevant to the education of students with disabilities, including a Free and Appropriate Public Education in the Least Restrictive Environment, court cases that influence practice, special-education processes, and the general-educator's role in each step before, during, and after an individualized education plan (IEP) has been created for a student. Candidates have the opportunity to observe classroom content in practice in their field placements, learning firsthand the collaborative skills required for successfully educating all children. Emphasis is placed on inclusive, equitable educational practices in schools and communities. In our Secondary MAT program, Teaching Students with Exceptionalities in Inclusive School Settings (SPED 505) helps our candidates to answer the questions: Who are students with exceptionalities and how do we adapt curriculum to meet their needs? This course addresses characteristics of student exceptionalities, principles and practices for effective planning, approaches to instruction, and options for assessment of all students. It prepares teacher candidates to advocate for appropriate instruction for all students in the least restrictive environment. Emphasis is placed on providing relevant information for the development of individualized education plans (IEPs), planning instruction that is guided by students' IEPs, and adapting curricula for all learners, including the use of Universal Design for Learning.

    c. **Effectively teach students who are limited English proficient.**

    In our MAT program, ESOL 535 courses are designed to prepare pre-K-12 preservice teachers for meeting the linguistic and academic needs of English Language Learners by providing an overview of language acquisitions theory and program components. Teacher candidates also identify resources (personnel and materials) to effectively serve linguistically diverse populations. In our ESOL 540 MAT course, we focus on using culturally responsive classroom practices to engage learners whose first and/or home language is not English. We explore how the candidate's culture and race intersect with learning and teaching. Course content centers on key elements impacting teaching and learning, including race, culture, and language, which are examined through the lens of classroom practice, school engagement, and community resources that support and build upon student and family assets. Candidates develop strategies to work with significant people in the child's environment in order to support and encourage success in schools. Candidates examine barriers to family involvement and learn strategies to encourage the development of positive working relationships between home and school. Topics for readings and discussion include, race, socioeconomics, language, social and cultural capital, language, and immigration. Candidates are often placed in a public school practicum site that has a large enough percentage of ESOL/Bilingual Students. Practicum placements are made in collaboration with the Office of Strategic Partnerships and Clinical Placements: priority is always given to placements in schools serving diverse populations. Bilingual practicum candidates may be placed at practicum sites where they deliver bilingual instruction.

2. Does your program prepare special education teachers?

   ○ Yes

   ● No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act.*

c. Effectively teach students who are limited English proficient.

Contextual Information

On this page, review the contextual information about your program. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

The Lewis & Clark Graduate School offers a 13-month post-baccalaureate program for pre-service teachers. The program is centered around a full-year student-teaching experience. Students are placed at a school site at the beginning of their program and remain at that site for the entire year. Our program reflects and exceeds the best practices in clinical preparation. Our data show, and our students report, that this extended time observing and practicing in the field prepares them well for their first years of teaching.
