List of Programs

On this page, review the list of teacher preparation programs offered by your institution of higher education (IHE) or organization. If you submitted an IPRC last year, this list of programs is pre-loaded from your prior year’s report. If your IHE offers both traditional and alternative programs, be sure to enter the programs in the appropriate reports. For the traditional report, list all traditional programs within the IHE. For the alternative report, list all alternative programs within the IHE. You may edit, delete, and insert new rows as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page. The system will automatically total the number of programs for you.

On this page, review and enter information about the program requirements for admission into the program, program completion, and supervised clinical experience. If you submitted an IPRC last year, much of this page is pre-loaded from your prior year's report. If your IHE offers both traditional and alternative programs, be sure to specify the requirements in the appropriate reports. For the traditional report, provide the requirements for traditional programs within the IHE. For the alternative report, provide the requirements for the alternative programs within the IHE.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

Supervised Clinical Experience

Provide the following information about supervised clinical experience in 2017-18. [\(§205\(a\)\(1\)\(C\)\(iii\), §205\(a\)\(1\)\(C\)\(iv\)\)](#)

[Additional guidance on reporting supervised clinical experience and nonclinical coursework.](#)

Average number of clock hours of supervised clinical experience required prior to student teaching	273.5
Average number of clock hours required for student teaching	660
Average number of clock hours required for mentoring/induction support	0
Number of full-time equivalent faculty supervising clinical experience during this academic year	33
Number of adjunct faculty supervising clinical experience during this academic year (IHE and PreK-12 staff)	107
Number of students in supervised clinical experience during this academic year	68

Please provide any additional information about or descriptions of the supervised clinical experiences:

Per Oregon’s state policy, the figure given for "Number of full-time equivalent faculty supervising clinical experience during this academic year" is a head count of faculty supervising clinical experiences during the academic year, including adjunct faculty, rather than using the FTE formula. Per Oregon’s state policy, the figure given for "Number of adjunct faculty supervising clinical experience during this academic year (IHE and PreK-12 staff)" is a head count for Cooperating Teachers instead of adjunct faculty supervising clinical experiences during the academic year.

Enrollment

On this page, enter the number of candidates for an initial teaching credential who are enrolled in the initial teacher preparation programs within your institution of higher education (IHE) or organization. **Do not** report on the total number of students enrolled in the entire IHE. **Do not** include individuals who currently hold a teaching credential and are seeking additional licenses or endorsements, or individuals preparing for school-based careers other than classroom teachers (e.g., administrators, guidance counselors).

The Department recognizes that in many cases, candidates voluntarily report their race/ethnicity and gender data, and that in some cases, candidates may choose not to report this information. Please report on the race/ethnicity data you have available, though the data may not be complete. It is not expected that the sum of the enrolled students reported by race/ethnicity or by gender will necessarily equal the total number of students enrolled.

If your IHE offers both traditional and alternative programs, be sure to enter the candidates enrolled in the appropriate reports. For the traditional report, provide only the candidates enrolled in traditional programs within the IHE. For the alternative report, provide only the candidates enrolled in the alternative programs within the IHE.

After entering the enrollment data, save the page using the floating save box at the bottom of the page.

THIS PAGE INCLUDES:

Enrollment

For the purpose of Title II reporting, an enrolled student is defined as a student who has been admitted to a teacher preparation program, but who has not completed the program during the academic year being reported. An individual who completed the program during the academic year being reported is counted as a program completer and *not* an enrolled student.

[Additional guidance on reporting race and ethnicity data.](#)

Total number of students enrolled in 2017-18	83
Unduplicated number of males enrolled in 2017-18	24
Unduplicated number of females enrolled in 2017-18	59

Provide the number of students in the teacher preparation program in the following categories. Note that you must report on the number of students by ethnicity and race separately. Individuals who are non-Hispanic/Latino will be reported in one of the race categories. Also note that individuals can belong to one or more racial groups, so the sum of the members of each racial category may not necessarily add up to the total number of students enrolled. ([§205\(a\)\(1\)\(C\)\(ii\)\(H\)](#))

2017-18	Number Enrolled
Ethnicity	
Hispanic/Latino of any race	0
Race	

2017-18	Number Enrolled
American Indian or Alaska Native	0
Asian	2
Black or African American	0
Native Hawaiian or Other Pacific Islander	0
White	73
Two or more races	4

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2017-18. For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. [\(\\$205\(b\)\(1\)\(H\)\)](#)

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2017-18. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

On this page, enter the total number of individuals who completed the program in AY 2017-18 and the two prior academic years. If you submitted an IPRC last year, the number of program completers for the two prior academic years are pre-loaded from your prior year's report.

A program completer is a person who has met all the requirements of a state-approved teacher preparation program. Program completers include all those who are documented as having met such requirements. Documentation may take the form of a degree, institutional certificate, program credential, transcript or other written proof of having met the program's requirements. In applying this definition, the fact that an individual has or has not been recommended to the state for initial certification or licensure may not be used as a criterion for determining who is a program completer.

An individual cannot be classified as both enrolled and as a program completer at the same time. An enrolled individual is not a program completer. Once an individual has met all the requirements of a state-approved teacher preparation program and becomes a program completer, the individual is no longer classified as enrolled.

After entering the program completers, save the page using the floating save box at the bottom of the page.

Our SPED endorsement returned in 2018-19. Our SPED Advisory Committee, made up of graduates of the SPED program, a longtime adjunct instructor who has taught in the SPED program, and a new adjunct instructor who just moved to the Portland area who has years of SPED experience in other states, has continued to meet to review and discuss SPED curriculum. Three members of the SPED Advisory Committee also serve as instructors for SPED coursework and the SPED Practicum. Based on SPED Advisory Committee feedback, we updated the Fall and Spring SPED courses

(SPED 513 and SPED 514) to provide a more explicit focus on the new Dyslexia standards. These revised SPED syllabi are under review by our Curriculum Committee. The SPED Advisory Committee will continue to review and revise SPED curriculum, with particular attention to the SPED teacher shortage in Oregon, which has resulted in an increase of SPED endorsement students who are working as SPED teachers while completing their SPED endorsement. We will also continue to collaborate with TSPC and ODE as they review the SPED endorsement.

12. Provide any additional comments, exceptions and explanations below:

We have focused on support for the practicum in our ESOL program. For practicum support, our ESOL Program Director, Erin Ocon, has met with the supervisors to discuss practicum expectations. Erin has also been in greater email contact with the ESOL mentors, including meeting with them at school sites when needed. Erin has also met more frequently with our teacher candidates to support their ESOL coursework and practicum.

Assurances

Please certify that your institution is in compliance with the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#), [§206\(b\)](#)) Note: Be prepared to provide documentation and evidence for your responses, when requested, to support the following assurances.

1. Preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- ☒ Yes
☐ No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- ☒ Yes
☐ No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- ☐ Yes
☐ No
☒ Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- ☒ Yes
☐ No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- ☒ Yes
☐ No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- ☒ Yes
- ☐ No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- ☒ Yes
- ☐ No

8. Describe your institution’s most successful strategies in meeting the assurances listed above:

We have coursework in ESOL and coursework or seminars in special education to help better prepare our candidates to meet the needs of their students who are limited English proficient and/or students with special needs. Our curriculum is aligned to the national SPA standards and we have both ESOL and SPED courses embedded in both of our preservice programs. We also have an MAT with ESOL Endorsement program that allows beginning teachers to earn an ESOL endorsement alongside their MAT degree program.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. [\(\\$205\(a\)\(1\)\(F\)\)](#)

Does your program prepare teachers to:

a. integrate technology effectively into curricula and instruction

- ☒ Yes
- ☐ No

b. use technology effectively to collect data to improve teaching and learning

- ☒ Yes
- ☐ No

c. use technology effectively to manage data to improve teaching and learning

- ☒ Yes
- ☐ No

d. use technology effectively to analyze data to improve teaching and learning

- ☒ Yes
- ☐ No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Our teacher preparation programs integrate use of technology for instruction and data use into both general and subject-/level-specific courses and activities. Candidates utilize various forms of technology to gather, enter, and represent learning. Secondary candidates use Google Apps for planning & sharing lesson plans with mentors, supervisors, & instructors. Many also use Peardeck, a polling add-on for google slides, in their teaching. At the subject-area level, students in our math program use SMART Board technology, graphing calculators, and geogebra. Math candidates also review and evaluate the effectiveness of free online tools. In language arts, they explore the use of podcasts and other audio and video technologies in literature. In addition, our candidates learn about critical issues associated with use of media and mobile devices in schools. For example, they explore issues related to professionalism on social media platforms and creation of blogs & websites. Elementary candidates use Google Apps extensively for course assignments and within their classroom instruction. For example: (1) Using Google docs for student writing--candidates provide feedback in the document and students collaborate in the writing process digitally; (2) Candidates use Google sheets to create data displays (tables and graphs) depicting student assessment results; (3) Candidates learn how to use Google forms to create quizzes; (3) Candidates differentiate assignments using Google docs shared with individual students--appropriately leveled tasks provided to individuals or groups; (4) Candidates use Google slides for presentations in classes. All initial licensure candidates use a combination of Moodle (our LMS), TaskStream (our ePortfolio system), and Google Apps for course assignments and discussion fora. As part of their edTPA assessment, they learned to create, edit, and upload video of their teaching into an

eportfolio platform in several hands-on workshops. In the spring, all candidates successfully submitted their edTPA assessment for scoring by Pearson.

On this page, review the questions about how your program trains general education teachers and special education teachers. For the purposes of these questions, general education teachers means those who are not specifically prepared as special education teachers. Teacher Training

Provide the following information about your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. [\(§205\(a\)\(1\)\(G\)\)](#)

1. Does your program prepare general education teachers to:

a. teach students with disabilities effectively

☒ Yes

☐ No

b. participate as a member of individualized education program teams

☒ Yes

☐ No

c. teach students who are limited English proficient effectively

☒ Yes

☐ No

2. Provide a description of the evidence your program uses to show that it prepares general education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the Individuals with Disabilities Education Act, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

In the Elementary program candidates take a two credit-hour sequence in the fall that focuses on both teaching students with disabilities, and legal issues. One major assignment in this sequence requires them to attend an IEP meeting and create a classroom profile with attention to all special needs of students. All Elementary Candidates take four credits in ESOL spread over three terms (summer, fall, spring). All elementary content courses also address subject-specific accommodations and supports for both ELL and SPED students with specific strategies. All lesson plans candidates submit for courses and for supervisor observations must include specific supports for ELL and SPED students. In the Secondary program, candidates take a yearlong course that focuses on students with disabilities, and they take a Legal Issues course in the fall that addresses Special Education law as well as General Ed law. Attention is given to the kind of language that is likely to appear in an IEP, so that our candidates are able to deeply understand plans. In addition, they are encouraged to attend an IEP meeting, if presented with the opportunity in the classroom (during the student-teaching experience). All secondary candidates complete 2 courses focused on addressing the needs of LEP students. Courses focus on language acquisition, identification of resources, & strategies for supporting LEP students in general education settings.

3. Does your program prepare special education teachers to:

a. teach students with disabilities effectively

- ☐ Yes
- ☐ No
- ☒ Program does not prepare special education teachers

b. participate as a member of individualized education program teams

- ☐ Yes
- ☐ No
- ☒ Program does not prepare special education teachers

c. teach students who are limited English proficient effectively

- ☐ Yes
- ☐ No
- ☒ Program does not prepare special education teachers

4. Provide a description of the evidence your program uses to show that it prepares special education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the Individuals with Disabilities Education Act, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

The Lewis & Clark Graduate School offers a 13-month post-baccalaureate program for pre-service teachers. The program is centered around a full-year student-teaching experience. Students are placed at a school site at the beginning of their program and remain at that site for the entire year. Our program reflects and exceeds the best practices in clinical preparation. Our data show, and our students report, that this extended time observing and practicing in the field well prepares them for their first years of teaching. – In Section I, Teachers Prepared, we reported 7 of our MAT completers' undergraduate majors under Other. The exact CIP code, name of major, and number of completers for each major was as follows: (3.0104) Environ. Science, 2; (30.2) International Studies, 1; (31.0505) Exercise and Sports Science, 1; (45.0901) International Relations, 1; (5.0103) Asian Studies, 1; (5.0104) East Asian Studies, 1;
