

**Advanced Programs: Oregon Public School Employment Rate
Summer & Fall 2020 Completers**

These figures are derived from newly-available public school employment data from the Oregon Department of Education. Note that completers employed in preschools and private, out-of-state, and international schools are *not* enumerated as “OR School Employed” here. Because we have fewer than 10 Completers in each of our Reading, ESOL, and SPED programs, those data have been excluded here.

Program	20-21 Completers	OR School Employed	OR School Employed %
Initial School Counseling	29	23	79%
Initial School Psychology	20	12	60%*
Principal License	16	13	81%
Professional Administrator	12	10	83%

*Note: this program places candidates nationally, and so many completers are hired out-of-state. Our School Psychology program is a nationally-approved by the [National Association of School Psychologists \(NASP\)](#). Graduates are able to apply for the National Certificate of School Psychology (NCSP) which enables them to apply for and obtain licensure (and thus employment) nationally.
