2021-2023

Program Handbook

**ADDENDUM FOR AY 2022-23**

All information about college policies and program operations found in the original [Handbook](#) are valid and applicable. This addendum provides new information about the structure of the practicum and supersedes practicum information provided in the original handbook.

## PTC Practicum

The practicum experience is integral to preparing PTC candidates for licensure. During the practicum, candidates are expected to practice and demonstrate proficiency in all five of the CAEP Rubric domains (see pgs 9 - 19). In this section we describe the structure and expectations unique to the PTC practicum along with guidelines and benchmarks for successful progress across the four practicum terms.

### Two Settings for PTC Practicum Hours

The practicum for students in the part-time cohort requires 100 hours of student contact experiences each fall and spring term which may be divided between two settings.

- At least 50 of the hours each term must be completed in the classroom of an LC-assigned mentor teacher at the school where the candidate works (or a school that agrees to host the candidate if their job duties are not within an elementary school setting). Mentors will be selected in collaboration with the district HR department and building principal and may change term by term or year by year. During the literacy-emphasis year, as many hours as possible should be spent in the mentor's classroom during literacy instruction. During the math-emphasis year, priority should be given to math instructional time. Spending full days in the mentor's classroom is recommended whenever possible. Practicum time spent with the mentor teacher should be free from regular job-duties. Each candidate will discuss with their district administrator or direct supervisor how to create a schedule that allows time for the practicum within the paid work day and determine if substitute release time (funded by HR) is necessary.
- Candidates whose job duties place them in instructional and/or supervision roles within an elementary general education setting may log up to 50 hours of job-embedded duties to complete the 100-hour requirement. Candidates whose job duties do not place them in general education elementary settings during the school day will need to complete all 100 hours in the mentor teacher's classroom.

The table below lists the categories of activities associated with both parts of the practicum experience. More details and sub-categories with examples are provided on pg 21.

<b>Must</b> be completed in the mentor's classroom (50-100 hours)	1. Observing/participating while the mentor teacher leads 2. Leading whole class activities 3. Facilitating small group work time 4. Completing coursework assignments that include a classroom component 5. Discussing instruction and student issues 6. Other activities related to the mentor's classroom
<b>May</b> be completed through job-embedded duties (up to 50 hours)	7. Planning 8. Teaching 9. Assessing 10. Collaborating 11. Supervising/supporting students 12. Supporting teachers 13. Other activities relevant to teacher preparation

## Practicum capstones

### What is a capstone?

A capstone project showcases the highest point in the development of an academic endeavor. It represents the culmination of a student's coursework leading to the successful completion of their program with a degree in their chosen field of study.

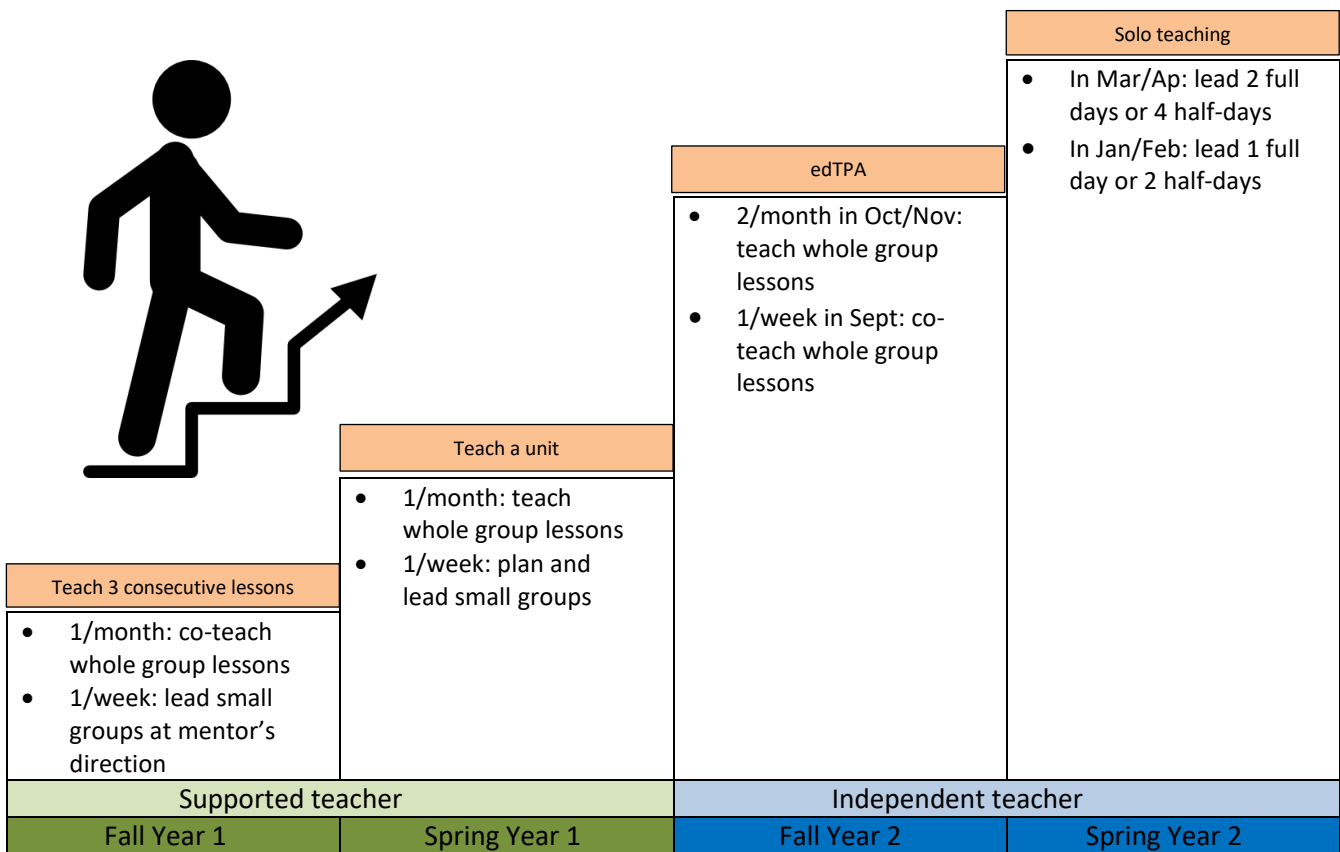

Progress toward meeting licensure requirements will be measured by the completion of a capstone experience at the end of each practicum term. Fall capstones take place in December and spring capstones take place after spring break as follows:

Year 1 (for pilot group)		Year 2	
Fall Capstone (in December)	Spring Capstone	Fall Capstone (in December)	Spring Capstone (after spring break)
Teach the math unit planned during MATH 567.	Complete practice edTPA.	Complete and submit edTPA.	Solo teaching for 6 weeks which includes teaching the unit designed in spring term coursework (math or literacy)

Each of these capstone experiences (except edTPA) includes a formal observation by the supervisor and is the focus of a triad meeting (mentor-candidate-supervisor) at the end of each term.

## Practicum Trajectory

The practicum experience is designed to gradually increase in intensity across the four terms and ensure the candidate is prepared for solo teaching. The visual below depicts this progression, and the calendar/checklist on the next page provide a way to monitor progress on these goals.

## Solo teaching

For six weeks following spring break in the second year of the program each candidate will assume the full range of teaching responsibilities in the mentor teacher's classroom. The candidate will need to take a **leave of absence** from their regular job duties during this interval of time in order to be fully in charge of the planning, teaching, managing, and assessing of students for six-weeks.

*ALL LC coursework must be completed prior to the start of the solo teaching.  
edTPA must be completed and submitted prior to the start of the solo teaching.  
Failure to complete all spring coursework and edTPA in a timely way will jeopardize the timing of the solo teaching and could prevent licensure recommendation.*

### **Candidate Responsibilities During Solo**

During the final phase of the student teaching experience you will take on the full range of responsibilities of a teacher with continued support from your mentor. You may only begin your six-week solo after submitting edTPA and completing all spring course requirements. During this time, you will take on the sole responsibility for all teacher duties including planning, preparation, assessment, communication with students' families, and attendance at meetings.

The exact start and end dates of the solo will be negotiated between you and your mentor but must fall within the window indicated on the calendar below. During the remaining weeks (prior to and following the solo experience) you should maintain a central role in all aspects of the classroom including co-planning and co-teaching with your mentor.

Additional requirements:

- Teach for at least two weeks of the solo without the mentor teacher in the classroom during instructional time.
- For the rest of the six-week solo, use your mentor as your classroom assistant.
- Share detailed lesson and unit plans with the mentor teacher at least the Friday prior to the week of instruction. The level of detail for these plans can be negotiated between the mentor and candidate.
- Provide detailed sub plans any time you are absent during the solo. These plans should be written with enough information for any sub to follow. If you are absent more than two days during solo, contact the clinical coordinator to determine if the solo timeframe will be extended.

### **Mentor Responsibilities During Solo**

During this phase, student teachers should establish their independence and demonstrate the ability to resolve problems independently by taking responsibility for the full range of teacher responsibilities for a period of six weeks. You take on the role of a coach and help identify areas in need of refinement that will help them become confident in dealing with the rigors of the daily challenges in the school environment.

For two weeks of the solo you are not present (or minimally present) in the classroom during the instructional day. A good plan is for you to greet students at the start of the day, touch base with students while they are at lunch or recess breaks, and return to say good-bye at the end of the day. This assures students and their parents that you are still involved, but you are confidently handing over teaching responsibilities to your candidate.

In addition, you should:

- ✓ Retain responsibility for all state testing.
- ✓ Regularly observe and give feedback to your candidate.
- ✓ Serve as a substitute for your student teacher for any absences during solo and follow the sub plans provided for you.
- ✓ Complete the fourth formal observation.
- ✓ Upon completion of the solo, write a letter of recommendation for the candidate.

## Supervisor Observation Schedule-Year 2

If a candidate is struggling, supervisors should schedule additional observations. Formal reports are not required for any observations beyond the ones described on the schedule below.

Fall Year 2	September	Informal observation of candidate teaching whole group lesson	There is no report necessary for the informal observation.
	Oct/Nov	3 <sup>rd</sup> formal observation of the candidate teaching lesson they planned.	Candidate should send the formal lesson plan at least 24 hours before the observation.
Spring Year 2	Prior to solo	4 <sup>th</sup> formal observation of the candidate teaching a whole group lesson on a day the candidate is leading a full or half-day	Candidate should send the formal lesson plan at least 24 hours before the observation.
	During solo	5 <sup>th</sup> and 6 <sup>th</sup> formal observations of the candidate teaching lessons	One of these observations should be of a lesson from the capstone unit.  Candidate should send the formal lesson plan at least 24 hours before the observation.

## Triad Meetings

Supervisors take the responsibility for scheduling the four required triad meetings at which the mentor, candidate, and supervisor discuss the candidate's progress.

1. December of 2<sup>nd</sup> year: Formative CAEP Standards 1-5 (supervisor submits ratings).
2. After solo in 2<sup>nd</sup> year: Reflection on solo teaching and summative CAEP rubric (supervisor submits ratings).

## Required Mentor-Candidate Meeting Dates

There will be a mentor-candidate meeting during each academic term. Specific information about each meeting will be sent to you ahead of time. The determination of meeting format (on-campus or Zoom) will be determined as the date approaches and you will be notified well in advance.

## Practicum Guidelines

The practicum experience for students in the part-time cohort requires 100 hours of student contact experiences. At least 50 of the hours each term must be completed in the classroom of an LC-assigned mentor teacher at the school where the candidate works. Candidates will use an electronic log sheet provided in Seminar to keep track of the date and length of each practicum activity. They will also record short memos describing their experience in that observation. The lists below enumerate activities that may be logged. Activities not included on these lists require LC approval in order to be included toward the required hours.

### **Practicum experiences in the mentor teacher's classroom (50-100 hours)**

During the literacy-emphasis year, as many hours as possible should be spent in the mentor's classroom during literacy instruction. During the math-emphasis year, priority should be given to math instructional time. Spending full days in the mentor's classroom is recommended whenever possible. The list below enumerates the types of experiences that can be logged toward the 50 mentor hours of practicum. The practicum experience is intended to broaden and deepen the candidate's teaching experience and should include activities across several of the categories/subcategories listed.

- 1. Observing/participating while the mentor teacher leads**
  - 1.1. Observing/participating in non-instructional time (e.g. transitions, community building, recess, beginning/end of day routines, read aloud)
  - 1.2. Observing/participating in literacy lessons
  - 1.3. Observing/participating in other content areas (e.g. math, social studies, science, art, PE)
  - 1.4. Providing classroom management support while the mentor is leading
- 2. Leading whole group classroom activities**
  - 2.1. Leading or co-leading non-instructional time (e.g. transitions, community circle, recess, beginning/end of day routines, read aloud, etc.)
  - 2.2. Teaching or co-teaching literacy lessons (during literacy-emphasis year) or math lessons (during math-emphasis year)
  - 2.3. Teaching or co-teaching other content areas (e.g. social studies, science, art, PE)
- 3. Facilitating small group work time**
  - 3.1. Leading small groups at the mentor's direction (e.g. pre-teaching, reteaching, providing extensions, providing intervention support)
  - 3.2. Planning and leading small groups (e.g. taking regular responsibility for a reading or math group, working with students who have been absent or fallen behind)
- 4. Completing LC coursework assignments that include a classroom component**
  - 4.1. Interviewing the mentor or students
  - 4.2. Discussing with the mentor any topics related to a course assignment
  - 4.3. Teaching lessons required as a course assignment
- 5. Discussing instruction and student issues**
  - 5.1. Meeting one-on-one with the mentor (recommended 30 min every other week--includes debriefing of lessons taught)
  - 5.2. Attending grade level team meetings
  - 5.3. Attending parent-teacher conferences, SST, or IEP meetings for students in mentor's class
- 6. Other activities related to the mentor's classroom**
  - 6.1. Observing in another same-grade classroom
  - 6.2. Subbing or covering for mentor or another same-grade level teacher
  - 6.3. Other activities (with LC approval)

**Practicum experiences that may be completed through job-embedded roles (up to 50 hours)**

The job duties of each PTC student vary greatly. Candidates whose job duties place them in instructional and/or supervision roles within an elementary general education setting may log up to 50 hours of job-embedded duties to complete the 100-hour requirement. Candidates whose job duties do not place them in general education elementary settings during the school day will need to complete all 100 hours in the mentor teacher's classroom. The goal for this part of the practicum experience is to recognize and document job-embedded experiences that enhance the candidate's planning, teaching, managing, and assessing skills. As with the mentor hours, logs should include activities across several of the categories/subcategories listed below.

**7. Planning**

- 7.1. Planning SEL or community-building activities you will deliver with students in groups or one-on-one
- 7.2. Planning academic lessons/activities you will teach outside the mentor's classroom

**8. Teaching**

- 8.1. Subbing or covering a class while the teacher is out of the room
- 8.2. Leading small group lessons

**9. Assessing**

- 9.1. Assessing students in school-wide or grade-wide initiatives
- 9.2. Assessing students during intervention or other small groups
- 9.3. Collecting observational data on students to be shared with a teacher or team
- 9.4. Analyzing assessment data for use in planning for intervention groups

**10. Collaborating**

- 10.1. Attending parent-teacher conferences, SST, or IEP meetings for students not in mentor's class
- 10.2. Participating faculty meetings or job-alike team meetings
- 10.3. Attending or leading professional development
- 10.4. Interacting informally with teachers in support of students
- 10.5. Providing training or support to new paras

**11. Supervising/supporting students**

- 11.1. Supervising students during library, lunch, recess, arrival/dismissal, etc.
- 11.2. Supporting individual students to complete academic tasks in the classroom
- 11.3. Supporting individual student's SEL needs through scheduled meetings and impromptu interactions
- 11.4. Providing in-person translation or other language support

**12. Supporting teachers**

- 12.1. Providing information about a student's academic or social progress to a teacher
- 12.2. Preparing or organizing instructional materials for a teacher

**13. Other activities relevant to teacher preparation**

- 13.1. Subbing or covering for another teacher or staff member
- 13.2. Other relevant activities (with LC approval)
